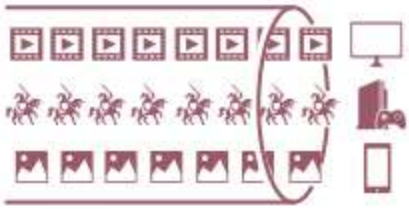
## AX1800 Dual Band WiFi 6 PoE+ Access Point

TRENDnet's high-performance AX1800 Dual Band WiFi 6 PoE+ Access Point features two concurrent WiFi bands to maximize device networking speeds with the latest WiFi 6 technology. Contact us to learn more!

### AX1800 WiFi 6

Two concurrent high-speed WiFi 6 bands to maximize device networking speeds: 1201Mbps on 5GHz and 576Mbps on 2.4GHz.



### Built For Busy Environments

MU-MIMO and OFDMA technologies process multiple data streams simultaneously, increasing real-time WIFI performance when multiple devices access the network.

### Access Point Flexibility

Supports Access Point, Client Bridge, WDS AP, WDS Bridge, WDS Station, and Repeater modes for multiple applications.

- **AX1800 Dual Band: 1201Mbps (5GHz) + 567Mbps (2.4GHz) bands**
- **Two concurrent WiFi bands maximize device networking speeds**
- **Supports up to WPA3 encryption**
- **Captive portal for hotspot applications**
- **Includes wall / ceiling mounting plate**
