Cable Management
Clips and Cradles

Durable, multi-purpose accessories that provide quick, secure routing of cabling.

Primex offers a range of clips to tie down, route and protect the bend radius of fiber.

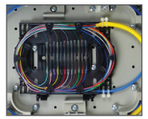
Part #	Description
125-0237	Grey Cable Clip (Hurricane)
125-0181	P108 (4/bag)
125-1710	Corner Clip (4/bag)
125-1826	Raised Cable Cradle (50/bag)
125-1249	Cable Cradle (50/bag)

Fiber Splice Tray
12, 24, and Universal Splice Trays

Secure, efficient management of 12-24 fibers within Primex Wave enclosures.

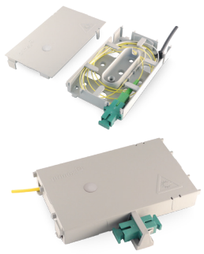
Easily stacked and scalable, these sturdy trays protect fiber bend radius across a range of splicing applications and are ideal for MDU's

Part #	Description
125-1520	Fiber Splice Tray, 12 Fiber
125-1521	Fiber Splice Tray, 24 Fiber
125-1620	Universal Fiber Splice Tray (mechanical, fusion, ribbon)
125-1668	Quick Release Splice Mounts



FTC
Fiber Transition Case

Efficient and adaptable solution for storing up to 3' of fiber drop cable and a simplex connector. The FTC is ideal for test points, FTTH, and repair splices.



Part #	Description
125-0848	Grey FTC w/screw cap
125-0850	Grey FTC w/adapter mount

FTO
Fiber Transition Outlet

Quick-splice solution that manages up to 3' of fiber drop cable.

This compact ransition outlet offers flexible entry ports and integrated dual fusion splice tray with room for two adapters and buffer tube management.

Part #	Description
125-0891	FTO w/splice tray
125-0892	FTO w/splice tray, 1 SC/APC adapter
125-0893	FTO w/splice tray, 2 SC/APC adapters

**Fiber not included*

Fiber Multi-Port
Drop Cable Enclosure Ports

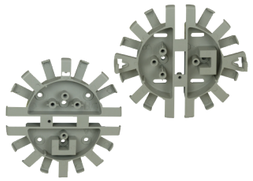
Easy-to-install lay-in grommet that seals out dust and rodents from enclosures.

Ideal for multiple drops from either a splitter or splice, the Multi-Port runs from 1-8 fibers between 2mm - 4.3mm.

Part #	Description
125-1025	Multi-port - 1 fiber (5.5-6.9mm)
125-1026	Multi-port - 2 fiber (2.5-3.5mm)
125-1027	Multi-port - 2 fiber (4.3-6.1mm)
125-1038	Multi-port - 4 fiber (2-3.25mm)
125-1028	Multi-port - 4 fiber (3.8-5.2mm)
125-1029	Multi-port - 6 fiber (2.6-3.6mm)
125-1012	Multi-port - 8 fiber (2.25-3mm)

Spider Spool
Fiber Management Spool

Routes, manages and stores fiber up to 3mm. Available in two sizes, it protects cable bend radius and is stackable and scalable. A hinged option available for mounting and accessing splice trays.



Part #	Description
125-0927	Hinged Spider Spool PVC (Gray)
125-0928	Quick Release Spider Spool PVC (Gray)
125-0929	Spider Spool PVC (Gray)

WAVE

FLEXIBLE, RELIABLE, IN-STOCK SOLUTIONS TO FIT YOUR NEEDS

Whatever the scale and complexity of your network installations, Primex' in-stock Fiber Solutions help you manage today's OSP infrastructure challenges.

High-grade, UV-protected, engineered plastic made in the US and Canada for secure, long-lasting protection in demanding weather conditions.

OSP ENCLOSURE CATEGORIES

Base Enclosure (ENC)
Blank enclosures with standardized mounting hole pattern for custom configurations.

Fiber Splice Enclosure (FSE)
Enclosures with integrated accessories for managing the splicing and storage of fiber.

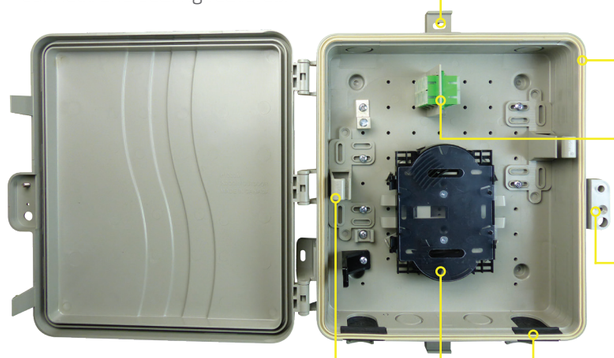
Fiber Splice & Connect (FSC)
Enclosures with splice storage and adapters for the connection and management of fiber.

Fiber Cross-Connect (FCC)
Enclosures that include fiber adapters and cable management to provide a simple transition point.

c UL us ISO 9001:2015

FEATURES

All enclosures include a mix of splice, connect and sealing features.



- **MANAGE:** Range of accessories to efficiently route and protect cables.

- **MOUNT:** Wall and pole mounting brackets for quick and easy deployment.

- **RELY:** UL-listed, NEMA-rated, sealed gasket and industry-standard mounting hole pattern.

- **CONNECT:** Standardized with simplex or duplex SC/APC fiber connectors.

- **SECURE:** Snap lid and hex bolt provides secure access 24/7.

- **SPLICE:** Fiber splice holders (Tray, FTC, FTO) to route and secure fiber.

- **IN/OUT:** 3/4" to 1" ports with grommets for protected cable entry and exit.

- **SIZE:** A range of sizing options for different applications and storage requirements.
