SF113 Wall Pushbutton Station - 1 Gang - White Plastic

SF113 Wall Pushbutton Station - 1 Gang - White Plastic

The Alpha Communications® model SF113 push button station includes a momentary (round) low voltage SPST push button switch.

The SF113 can be used as an indoor contact device or push button for a variety of systems. The SF113 features a White Plastic face plate, and mounts on a single gang electric box or plaster ring.

When required the SF113 stations can be made with custom markings such as 'Press to Call', or 'Press to Check-in', etc. When any custom markings are required add the prefix 'X' to the model number, making the custom station a model XSF113 (at additional cost).

Features

- White Plastic Faceplate
- Momentary (round) low voltage SPST pushbutton switch
