CATEGORY	PART #	THUMBNAIL	DESCRIPTION	NOTES		BATTERY AMT	BATTERY PART #
Control Panels	XT-IP620		Indoor Control Panel for residential and small commercial applications. Communication: Ethernet only	- Must be powered by the 12V DC Power Adapter + 4 backup Alkaline D-Cell batteries (PP4 power option). - Recommended panel for smartphone interactivity. - RF range: 250-500 ft. (depends on application)	Wireless zones: 24 Arming inputs: 2	4 w/ PP4	E95VP
	XT-IP630		Indoor Control Panel for residential and small commercial applications. Communications: cell or Ethernet w/ cell backup.	- PP4 power option required if using Ethernet. - RF range: 250-500 ft. (depends on application) - Choose a SIM card/service provider if using cell communication	Programmable inputs: 3	4 w/ PP1	LSH20
						4 w/ PP4	E95VP
	XTO-IP630		Outdoor Control Panel for outdoor, remote sites, and large commercial properties. Communications: cell or Ethernet w/ cell backup.	- Control panel comes in an extreme-temperature rated at -20/+140°F (-30/+60°C) and weatherproof (IP65) enclosure. - Includes integrated, high-gain RF and cellular antennas. - PP4 power option required if using Ethernet. - RF range: 500-1,000 ft. (depends on application) - Choose a SIM card/service provider if using cell communication	Programmable outputs: 2 User codes: 19 Events history log: 4,000	4 w/ PP1	LSH20
						4 w/ PP4	E95VP
SIM Cards *(for XT-IP630 and XTO-IP630 control panels)*	TG200		Telguard SIM card	AT&T coverage. To learn more, go to www.videofied.com/cell-providers, call 800-229-2326 or email sales@telguard.com	NA		
	WYL200		Wyless SIM card	T-Mobile coverage. To learn more, go to www.videofied.com/cell-providers, call 888-616-6800 or email sales.support@wyless.com			
	CRS200		Telit/Crossbridge SIM card	AT&T coverage. To learn more, go to www.videofied.com/cell-providers			
	UPL200		Uplink SIM card	T-Mobile and AT&T coverage. To learn more, go to www.videofied.com/cell-providers or call 1-888-9-Uplink			
Control Panel Power Options	PP4		12V DC Power Adapter + 4 backup Alkaline D-Cell batteries (3-6 month backup life depending on the amount of alarm activity)	Required power option for XT-IP620 control panel and XT-IP630/XTO-IP630 panel when communicating primarily over Ethernet and/or using interactive services for remote arming/disarming and Look-in.	4	E95VP
	PP1		4 Lithium D-Cell batteries; up to 4 yr battery life for a low amount of activity (2 alarms/mo)	Normal power option for XTO-IP630 outdoor control panel (to allow for completely wireless and battery-operated installation). Also compatible with XT-IP630 panel.	No replacement batteries. Reorder PP1	
Arming Devices & Accessories	XMA621		Indoor Vertical Alpha Keypa (batteries included)	- A keypad is required for programming/maintenance. - Can be used for arming and disarming. - 3 batteries included but has extra slot for optional 4th battery for longer life	3 or 4	LS14500
	WMB621		Indoor Horizontal Alpha Keypad with integrated prox tag reader (batteries included)	- Compatible w/ VT100 prox tags (1 prox tag included). Mifare 13.56 MHz 1k compatible. - A keypad is required for programming and maintenance. - Can be used for arming and disarming.	3	LS14500
	BR651		Outdoor Prox Tag Reader / Arming Station (batteries included)	- Blinking LEDs display and audible tones for armed/disarmed status. - Compatible w/ VT100 prox tags (1 prox tag included). Mifare 13.56 MHz 1k compatible. - Outdoor-rated for extreme temperatures/conditions (-20/+140°F (-30/+60°C), IP65)	3	LS14500
	VT100		Prox tag	Compatible with the WMB621 Horizontal Alpha Keypad and BR651 Prox Tag Reader.	NA	
	RC601		Remote (battery included)	Wireless remote control for arming/disarming. Includes 2 buttons for special arming modes and duress. Battery not replaceable (soldered into device).	See note.	

VIDEOFIED PARTS CHART

CATEGORY	PART #	THUMBNAIL	DESCRIPTION	NOTES	BATTERY AMT	BATTERY PART #
Indoor Detection & Devices	IMV601		Indoor MotionViewer. Wireless device with integrated PIR, camera and infrared illuminators. (batteries included)	- Takes a short video clip of intruder and transmits to panel, panel transmits alarm+video to monitoring station for video verification and priority response - Video: Color/day, Monochrome/night - Flat wall and corner mounting - Camera angle: 110°; PIR angle: 90°	2	LS14500
	IUT601		Indoor Universal Transmitter (battery included)	Includes terminals only for dry contact third party devices.	1	LS14500
	IDC601		Door/Window Contact (battery included)	Includes built-in reed switch only for doors or windows.	1	CR123A
	IMD601		Wireless PIR (battery included)	No video verification. Recommended as a secondary detection device that is paired with at least one Indoor MotionViewer per property.	1	LS14500
	SE601		Indoor Siren (batteries included)	Adds 115 dB siren to system. Sounds door chime, entry and exit delays at low volume, and intrusion.	4	E95VP
Outdoor Detection & Devices	DCV651		Outdoor MotionViewer. Wireless device with integrated PIR, camera and infrared illuminators. (batteries included)	- Takes a short video clip of intruder and transmits to panel, panel transmits alarm+video to monitoring station for video verification and priority response - Video: Monochrome - Terminate view 30 ft from the device. Cover assets, not entire areas. Look in from fenced perimeter, not out. - Extreme temperature rated at -20/+140°F (-30/+60°C), weatherproof (IP65)	3	LS14500
	MB110		Outdoor MotionViewer Mounting Bracket	- Multiple installation configurations for wall, corner and pole mounts. - Compatible with the MB120 Magnetic Base	NA	
	MB120		Magnetic Base for MB110 Outdoor MotionViewer Mounting Bracket	- Cannot be screwed directly to Outdoor MotionViewer. - Must be used in conjunction with the MB110 Mounting Bracket.		
	SE651		Outdoor Siren/Strobe (batteries included)	- 115dB sounder activates and includes flashing LED strobe. - Extreme temperature rated at -20/+140°F (-30/+60°C) and weatherproof (IP65)	4	E95VP
Replacement Batteries	LS14500		AA Cell Lithium - Device Battery	Compatible devices: XMA621, WMB621, BR651, IMV601, IUT601, IMD601, DCV651	NA	
	LSH20		D Cell Lithium - Control Panel Battery	Compatible devices: XT-IP630 Indoor Control Panel and XTO-IP630 Outdoor Control Panel. DO NOT use in conjunction with the PP4 Power Adapter.		
	E95VP		D Cell Alkaline - Siren Battery	Compatible devices: SE601 Indoor Siren, SE651 Outdoor Siren, replacements for PP4		
	CR123A		3V Lithium	Compatible devices: IDC601		
Accessories	AA33		Battery Eliminator	One AA33 replaces all batteries in IMV601, DCV651, XMA621, WMB 621, IUT601, IMD601 to power with a 5-12V power supply		
	XCABL-USB V2		TMB USB Programming Cable	Alternative to programming/setup of Videofied system with an alpha keypad as well local maintenance. Comes with instruction to download free software.
