

**1. PRODUCT SUMMARY**

The Primex 8-port Cat6 Data/Voice Module w/RJ45 provides a termination point for simplified cross connect signal distribution from a central location.

Designed to fit in Primex Media Distribution Enclosures for structured wiring, the modules offer quick and easy toolless RJ45 connection.

They extend the networking functionality of the connected home in commercial applications while providing effective cable management.

**2. PRODUCT DIMENSIONS**

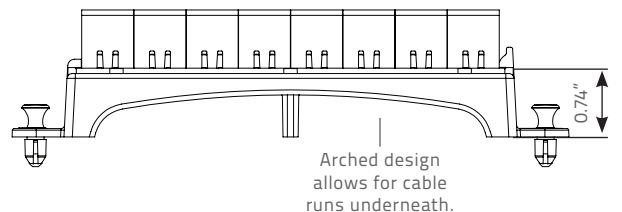

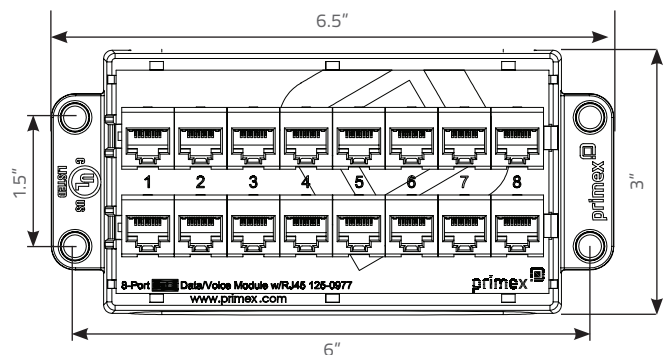

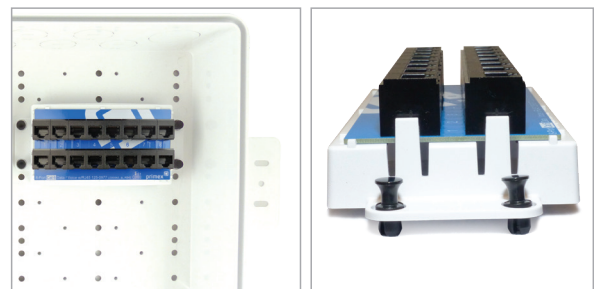

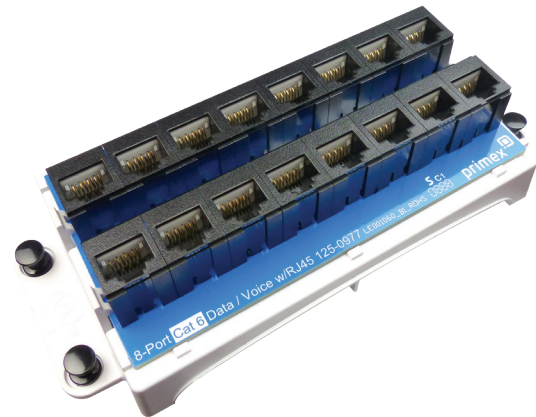

SIZE: 6.5"L x 3"W x 1.75"H

**3. FEATURES & BENEFITS**

- Eight input and output RJ45 jacks provide quick and easy data and voice distribution for pre-connectorized cable.
- Easily and securely installed with four push pins.
- Simplified cross connect signal distribution.
- Fits Primex Media Distribution Enclosures for structured wiring (PR1500, P2100, P3000, P4200, P6300).
- Arched mounting bracket allows for cable run access.
- Ideal for hospitality, health care and retirement communities where room changes are frequent.
- UL-Listed

**4. CONFIGURATIONS**

Part #	Description
125-0977	8-Port Cat6 Data/Voice Module w/RJ45
