PRIMEX
Product Specification Sheet

1. SUMMARY

The patented Primex Rail Mounting System (RMS) includes the plate and brackets, and mounts components and accessories easily in the P2100, P3000, P4200, P6300, and PR1500 Verge Media Distribution Enclosures.

The durable plate snaps into place quickly via the pushpins while the toolless brackets hold components securely for versatile component configuration.

Available as individual pieces or as a kit.

2. DIMENSIONS

H 7" or 10"/ W 13.25"/ D 0.5"

3. FEATURES & BENEFITS

- Patented plate and bracket system for quick and easy component mounting inside Primex P2100, P3000, P4200, P6300, and PR1500 Media Distribution Enclosures.

- Toolless brackets securely hold modems, ONTs, UPS' and component management accessories.

- Single (RMB), double (RMB2), and keyhole (RMK) brackets to configure and/or stack almost any component.

- Lightweight and easy to install with snap-in pushpins.

4. CONFIGURATIONS

Part #	Description
125-1164	RMP - 7" Rail Mounting Plate (1pc)
125-1165	RMP - 10" Rail Mounting Plate (1pc)
125-1213	RMB - Rail Mount Bracket (6pc)
125-1214	RMB2 - Dual Rail Mount Bracket (6pc)
125-1338	Rail Mount Keyhole (1pc)

Kits:

Part #	Description
125-1655	7" RMP w/RMB2(x2), pushpins (x10)
125-1656	7" RMP w/RMB(x2), pushpins (x10)
125-1657	7" RMP w/RMK(x2), pushpins (x10)
125-1658	10" RMP w/RMB2(x4), pushpins (x10)
125-1659	10" RMP w/RMB(x4), pushpins (x10)
125-1660	10" RMP w/RMB2(x2)/RMK(x2), pushpins(x10)
