

HBC5 Series

INDOOR CAMERA MOUNTING BRACKET

Honeywell's HBC5 Series indoor camera mounting brackets are designed with style and functionality where ceiling or wall mounting is required. They are an ideal solution for the vast majority of indoor applications. Quick and easy to install, the camera mounting brackets are designed to accommodate most video camera/lens combinations.

The HBC5 Series features a 3-axis rotation that allows easy positioning of cameras. These light duty mounts are available in off-white or black finish and can accommodate loads up to 7.5 lb (3.5 kg). They are constructed of high impact ABS plastic which reduces the chance of ground loops and makes them sturdy for most applications.

Market Opportunities

The Honeywell HBC5 Series of indoor camera mounting brackets are designed for applications that require a low cost, discreet camera mounting for walls and ceilings. This includes general surveillance applications in retail, banking, hospitality, light commercial, and industrial environments.

Features

- New contemporary design
- Economically priced
- ABS plastic
- Cable feed through
- 3-axis rotation
- Mounting hardware provided
- Available in off-white or black
