

# HES<sup>®</sup> 9700 Surface Mounted Electric Strike

Works with Corbin Russwin SecureBolt<sup>®</sup>  
and Yale SquareBolt<sup>®</sup> exit devices

The stylish  
windstorm resistant  
and fire rated,  
squarebolt solution.

The HES 9700 Series Electric Strike is a heavy duty, surface mounted electric strike designed to accommodate Corbin Russwin SecureBolt<sup>®</sup> and Yale SquareBolt<sup>®</sup> exit devices. All components are completely encased within its 3/4" thick stainless steel housing, so no cutting on the frame is required for installation. It is field selectable for fail secure or fail safe operation, and for 12 or 24 VDC.

The HES 9700 is designed with the strength and durability required to exceed the severe forces of ANSI Windstorm testing. This unique electric strike also complies with NFPA 80-07 guidelines for retrofit into fire rated frames.
