ORTRONICS®

WHITE CLARITY® PATCH PANELS

Legrand's® new offering of white Clarity™ patch panels is now available with our popular 6-port connector versions as well as our High Density Jack (HDJ) versions. These new panels compliment and support the growing interest in Legrand's white racks and cabinets. This initial white panel offering targets our most popular panel constructions with both flat and angled versions.

FEATURES:

- Available in Clarity 6A, 6 and 5E performance
- Available in angled or flat, 1RU and 2RU versions
- 6-port or HDJ terminations
- Elements of nCompass™ + channel solutions
- RoHS compliant and UL listed to UL1863
- Have published Product Environmental Profiles (PEPs)

BENEFITS:

- Support any premium performance application
- Variety of cable management and port presentation options
- Multi-port 110 termination or individual jack options
- Elevated channel performance with margin over standards performance
- Code compliant
- Sustainable product documentation
