Features

Hear sound from all directions with up to 7.1.2ch surround sound

Vertical Surround Engine, our advanced surround technology, lets you enjoy the thrill of the latest cinema audio formats like Dolby Atmos and DTS:X in a single slim unit.¹ Its three front speakers, combined with unique Sony signal processing, reproduce “vertical” audio, creating virtual surround sound that seems to come from all around you.

Everything upscaled close to 7.1.2ch

Hit the Immersive AE (Audio Enhancer) button and the HT-G700 can upscale even regular stereo audio to 7.1.2 surround sound – so every TV show and movie gets the surround sound treatment. Once 3D sound formats are detected, the soundbar will automatically enable playback without having to press the IAE button.

Center speaker for crystal clear dialogue

A dedicated center speaker ensures that voices can be clearly heard, whether it's quick-fire dialogue in your favorite TV show or whispered lines in a Hollywood movie. It's great for music too, ensuring a rich and detailed listening experience.

SONY

Wireless subwoofer for rich, powerful bass

The powerful wireless subwoofer delivers a deeper, richer bass sound. With a simple wireless connection, you can place it where it best fits the sound stage in your home.

Sound modes to match your entertainment

Select the sound or audio mode best suited to your entertainment with a push of a button on your remote control. Go deeper into movies with Cinema mode and hear every detail of your favorite tracks in Music mode. Night mode optimizes the sound balance so you can hear everything clearly, even at low volume levels.

Easy connections

Choose which connection type works best for your home theater setup. Connect a compatible TV or device wirelessly via Bluetooth^{®3}, or use the HDMI eARC¹ or optical digital input for full-bandwidth sound.

Enjoy all your movies in 4K HDR quality

With the latest 4K HDR 18Gbps passthrough and HDCP 2.2, the HT-G700 is made for the latest home cinema formats including Dolby Vision, HDR10, and Hybrid Log Gamma.

Wireless connectivity with your TV

Send audio wirelessly from your compatible Sony TV to your soundbar using Bluetooth[®] technology.³

eARC Enabled

Enjoy immersive Dolby Atmos audio from your favorite streaming providers²

One-cable HDMI ARC

Send audio and control information from your TV using just one cable with HDMI.¹

Stream with Bluetooth[®] technology

Stream music wirelessly directly from your phone, tablet, or other Bluetooth-enabled device with Bluetooth[®] technology³.
