- Deep sound with Bass Reflex speaker
- High power with slim design
- Wireless connectivity with your TV[1]

- Easy TV set up with HDMI ARC[2]
- Hear sound come from all around you with S-Force Pro Front Surround
- Music play back with USB and Bluetooth®[1]
- Wall mountable

Features

Built-in tweeter

Built-in tweeter recreates a full range of sounds, from the high note of your favorite song

2 channels

The two speaker setup delivers front surround sound from a compact unit.

Bass Reflex speaker

A speaker that delivers punchy bass without compromising detail and clarity, perfect for enjoying TV shows and music.

High power with slim design

The HT-S100F soundbar packs a punch without sacrificing a compact profile, with an incredible output of 120W. Hear the booming sounds you love from your favorite shows and moves.

Wireless connectivity with your TV [1]

Send audio to your sound bar wirelessly with a Bluetooth® connection.[1]

One Cable HDMI ARC

Send audio and control information from your TV using just one cable with HDMI ARC.[2]

Hear sound come from all around

S-Force PRO Front Surround technology emulates cinema style sound fields for rich, high-fidelity audio that fills the room.

Stream with Bluetooth ® technology

Stream music wirelessly with Bluetooth® technology.[1]

Connect via USB

Plug in via USB to play back your favorite albums.

Wall Mountable

Mount to the wall for seamless integration with your entertainment center.
