

TRC-1080

PROGRAMMABLE WI-FI (COLOR LCD) UNIVERSAL REMOTE CONTROL

Convenience customized

Envision your commercial building equipped with easy-to-use tools to help you reach new levels of convenience. With the TRC-1080's capability to support virtually unlimited audio visual components, your company will realize the full potential of a URC Total Control® system. Enjoy robust functionality to create a custom menu for quick access to things important to you. Revel in the two-way feedback feature for real-time monitoring right

on the remote screen. Imagine the ability to see many things you're controlling, from large warehouses to corporate training rooms. Plus, this remote automatically "wakes up" when lifted thanks to pick-up sensor technology. Just one button press gives you immediate access to your A/V equipment and more.

Sophisticated style

Featuring a vivid 2-inch color high-resolution screen, with backlit LCD, the TRC-1080's sleek ergonomic design sits in a stylish piano black tabletop charging cradle that looks fabulous in any environment. With just the right number of hard button keys including the four colored

buttons, you can enjoy fast access to complete Blu-ray and DVR playback functionality. The TRC-1080 also employs the latest in battery technology making it the perfect eco-friendly addition to your Total Control system.

Designed with your Total Control system in mind

Designed to be an extension of the URC Total Control family of products, this remote features quick connect Wi-Fi which means no waiting to take control. A full range of integrated components means having the freedom to set and monitor the temperature on a classroom's thermostat, keep an eye on the front lobby without leaving the boardroom, or dim the lights in a training center before a video presentation – making it easy to enjoy total control of just about anything. *Simply Brilliant.*
