

SW2200IP

Features:

- >Advanced H.264 video compression technology
- >Allow user configure video setting, alarm setting, and micro SD card through Smartphone directly, no need PC to configure anymore!
- >Supports remote PC recording and local recording to Micro SD(up to 32GB micro SD card externally)
- >P2P (point-to-point) for easy remote access without networking knowledge need
- >Wired Ethernet network connection
- >Motion detection recording, manual recording or schedule recording
- >Alarming record can be stored by email, FTP server.
- > It built-in inner web server. Users can browse video through IE, Firefox, chrome and Mac (Safari).
- >Support mobile Smartphone view remotely (iPhone/Android's smartphone).
- >CMS client software for remote access/control, record/playback, and monitor up to 64 IP cameras
- >Supports up to 10 login users at the same time

Specifications:

Image Sensor 650TVL SONY CCD, Color			
Signal system NTSC/Pal selectable Lens 3.7mm Min. Illumination 0.1 Lux Frame rate 30fps NTSC, 25fps Pal Resolution D1 (720x480) Video adjustment Brightness, contrast, & saturation Video bit rate 32 Kbps ~ 2.5 Mbps Zoom Digital zoom IR cut filter No Night vision No Recording mode Motion detection, manual, and schedule Storage Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot Backup Remote back up to PC Playback Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm Photo email; record photo to FTP; record		Image Sensor	650TVL SONY CCD, Color

Video bit rate 32 Kbps ~ 2.5 Mbps Zoom Digital zoom IR cut filter No Night vision No Recording mode Motion detection, manual, and schedule Storage Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot Backup Remote back up to PC Playback Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		Resolution	D1 (720x480)
Zoom Digital zoom IR cut filter No Night vision No Recording mode Motion detection, manual, and schedule Storage Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot & Playback Backup Remote back up to PC Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		Video adjustment	Brightness, contrast, & saturation
IR cut filter No Night vision No Recording mode Motion detection, manual, and schedule Storage Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot 8 Playback Backup Remote back up to PC Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		Video bit rate	32 Kbps ~ 2.5 Mbps
Night vision No Recording mode Motion detection, manual, and schedule Storage Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot & Playback Backup Remote back up to PC Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		Zoom	Digital zoom
Recording mode Motion detection, manual, and schedule Storage Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot Backup Remote back up to PC Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		IR cut filter	No
Recording & Playback Backup Playback Playback Motion detection Alarm Record to local SD (up to 32GB, not included); record to remote PC; video or snapshot Remote back up to PC Playback via SD reader; real time remote playback; remotely download and playback VMD (video motion detection) Alarm photo email; record photo to FTP; record		Night vision	No
Recording & Playback Backup Playback Playback Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection Alarm reactions to remote PC; video or snapshot Remote back up to PC Playback via SD reader; real time remote playback; remotely download and playback Alarm photo email; record photo to FTP; record		Recording mode	Motion detection, manual, and schedule
& Playback Backup Remote back up to PC Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		Storage	Record to local SD (up to 32GB, not included); record
Playback Playback via SD reader; real time remote playback; remotely download and playback Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record	Recording		to remote PC; video or snapshot
remotely download and playback Motion detection VMD (video motion detection) Alarm Photo email; record photo to FTP; record	& Playback	Backup	Remote back up to PC
Motion detection VMD (video motion detection) Alarm reactions Alarm photo email; record photo to FTP; record		Playback	Playback via SD reader; real time remote playback;
Alarm reactions			remotely download and playback
The second secon		Motion detection	VMD (video motion detection)
video/photo to SD	Alarm	Alarm reactions	Alarm photo email; record photo to FTP; record
			video/photo to SD

Network	Network interface	10/100 Base Ethernet (for wired network connection)
	IP mode	Dynamic IP address; static IP address
	Protocol	TCP/IP, HTTP, TCP, ICMP, UDP, ARP, IGMP, SMTP,
		FTP, DHCP, DNS, DDNS, NTP, UPNT, & RTSP.
	Online users	10 users at the same time
	Mobile surveillance	iPhone, Android
	Internet viewing	Supports browsers: IE, Firefox, Chrome and Safari
	Remote access	Yes
Software	CMS software	Central management software for recording, remote
		monitoring, remote access and control, search and
		playback, and up to 64 multiple cameras surveillance
	User levels for CMS	Administrator, Normal, & Guest (viewing only)
	Camera naming	Supports camera labeling for distinguishing cameras
	Password protection	Yes
CPU & System	Operating system	Embedded Linux OS
	Micro processor	32Bit RISC embedded processor
	System requirement	Microsoft Win98 SE, ME, 2000, XP, Vista, or Windows
		7
Others	onvif	Support onvif 2.0
	Indoor/outdoor usage	Indoor
	Operating temperature	-10 ~ 50 ℃ (+14 ~ 122 ℉)
	Humidity	95% RH
	Power	DC12V 1A
