

# Floor-Standing Mount

## Quick Start Guide

The adjustable range of the bracket without Tube1 is from 0.67m to 0.99m.

### Package

1. Pedestal	
2. Telescopic tube	
3. Tube 2	
4. Tube1	
5. Flange	
6. Tool	
7. Screw(M3)*4	

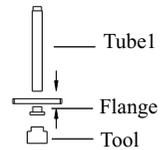

Gross weight: Approx. 4.7KG

Net weight: Approx.4.6KG

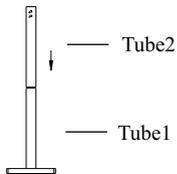

## Installation

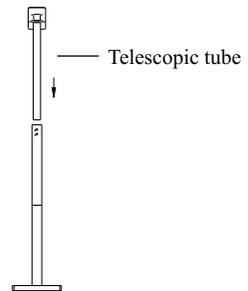

1. Put the flange into the hole of the pedestal.

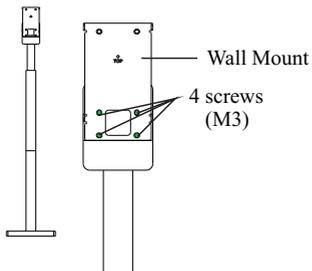

2. Use the tool to fix the flange and the tube1 (You can also directly install Tube2 if you don't want to install Tube1).

3. Install Tube 2 as shown above.

4. Install the telescopic tube.

5. Install the wall mount onto the bracket and then fix it with 4 screws.

6. Adjust the height of the bracket and then tighten the screws.
