### Introduction

The Eyeball Dome IP Camera is an outdoor, network camera equipped with an automatic IR-cut filter and IR LEDs for day and night surveillance. The camera supports H.265 video codec to achieve better compression ratio while maintaining high quality pictures at reduced network bandwidths. GV-EBD8813 adheres to IK10 and IP67 standards, and can be powered through PoE.

Empowered by deep learning algorithms, AI technology distinguishes human and vehicles from other moving objects. Integrated with GeoVision Video Management Software (VMS), it supports AI perimeter protection, real time alert, events playback and more.

### Deep Learning Function

#### Face Detection

#### AI Perimeter Protection (Intrusion, Crossing Line Entering Area, Leaving Area)

#### People Counting

**Note:** The integration of AI events of the camera to GV-VMS is coming soon.
