JONARD TOOLS®

INSTRUCTIONS FOR USE:

1

1. To protect ceiling tiles from damage, remove both tiles in the corner of the ceiling you wish to install the Cable Funnel. Then position the Cable Funnel finger loop down as shown.

2

2. Slide the Cable Funnel into the corner of the ceiling grid, positioning the upper tabs above the grid and lower tabs below the grid.

3

3. With the ceiling grid slotted between the Cable Funnel's tabs, push until the Cable Funnel locks into the corner. You are now ready to run your wires!

TO REMOVE: Simply pull the Cable Funnel's finger loop to release from the ceiling grid & slide off.
