

Product Specifications

6 Pc Drill & Tap Bit Kit

Part number DRT6C
Category number 6348
UPC 781002128700

The DRT6C is an assortment of six different drill & tap bits that are manufactured from High Speed M2 Steel. They are used to create screw threads or countersunk holes for easy connections and smooth finishes. Their 135 self-centering split point allow them to drill, tap, and deburr in one operation and are designed for use in up to 10 gauge metal.

Physical Characteristics

Type	Drill/Tap Kit
Point Type	135° Split
Shank Type	Quick Change
Drill Bit Size	#16, #21, #26, #29, #36, #7
Length (in)	2" & 2-1/4"
Material	M2 High Speed Steel
Finish	Polished
Construction	One-Piece
Number of Flutes	One

Packaging Details

Number of Pieces	6
Standard Qty	1
Master Qty	1
Price Per	1
Package Length	9.2
Package Width	4.6
Package Height	1.2
Package Weight	0.3
Net Weight	0.3

Performance Data

Intended Cutting Material	Aluminum, Brass, Copper, and Steel
Applications	Drill Tap & Deburr in One Operation Up to 10 Gauge Metal
Split Drill Point	135°

Certifications

RoHS Compliant	Yes
Industry Standards	ANSI
