

Product Specifications

1/4" X 1-1/4" Fender Washer

Part number FENW14114
Category number 4110
UPC 781002155157

Fender Washers differ from standard Flat Washers in that their outside diameters are much larger in proportion to their center holes. With this design, a fender washer can be placed under the head of a bolt or nut, to help distribute forces applied when tightening, or to cover an oversized hole.

Physical Characteristics		Packaging Details		Performance Data		Certifications	
Type	Fender Washer	Standard Qty	100	Special Features	Distributes Forces Evenly, Large Surface Covers Oversized Holes	RoHS Compliant	Yes
Size	1/4" x 1-1/4"	Sleeve Qty	500			Meets/Exceeds	
Inside Diameter	0.275" - 0.295"	Master Qty	3000	Applications	General Purpose	ASME B18.21.1	
Outside Diameter	1.242" - 1.279"	Price Per	100				
Thickness (in)	0.047" - 0.080"	Package Length	2.18				
Fits Bolt Sizes	1/4"	Package Width	2.92				
Material	Low Carbon Steel	Package Height	4.31				
Finish	Zinc Plated	Package Weight	1.80				
		Net Weight	0.02
