

6151

Fixed Language Display Keypad with One Integrated Hardwired Zone

The 6151 Fixed Language Display Keypad with One Integrated Hardwired Zone help reduce install, material and inventory costs. This keypad is ideal for applications such as a front door or foyer where hardwiring back to the control panel would not be required. The attractive white console blends perfectly with any décor and features a contoured, removable door that conceals soft-touch illuminated keys. The 6151 also features a large, back-lit fixed glass display that uses three-digit zone numbers. The oversized function keys are easily accessed even when the keypad door is closed and can be programmed for fire, burglary, personal emergencies or other applications. Colored, self-adhesive labels are included.

With door

Without door
