Know more.
Spot what matters.

A floodlight meets a security camera meets intelligence.

Shine a brighter light on what's happening.
Know and see what's relevant with built-in intelligent alerts for people, vehicles, and animals.[1]

Make the floodlight yours.
Adjust brightness, sensitivity, and how long the light stays on or off all while running the automated Routine that works with your schedule.[2]
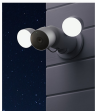

Quickly take action.
Turn it on with your voice and talk through your home and capture what you need to.

Keep your data safe and secure.
Two step verification enhances security, and the green LED light lets you know Nest Cam is recording.

Some features, including mobile notifications, remote control, video streaming, and video recording, require existing internet and Wi-Fi. Personalized features require additional enrollment and setup.

Shine a brighter light on what's happening.

Nest Cam with floodlight is a smart security camera that helps you stay aware of important activity. When something happens, it automatically turns on the lights and sends you an alert.[1]

Lights a path when you need it.
Two LED lights and 360° motion detection add brightness and flexibility, so very little will go undetected.

Built-in intelligence for better detection.
It knows the difference between people, animals, and vehicles. It can even recognize familiar and unfamiliar faces.[2]

Check in outside your home in crisp HDR.
See what's happening near your floodlight security camera 24/7 in 1080p HDR video.[3] Night vision helps you see in low light.

Image simulated. Some features, including mobile notifications, remote control, video streaming, and video recording, require existing internet and Wi-Fi. Familiar face alerts require a Nest Aware subscription (sold separately). Not available for Nest Cams used in Illinois.

Install it yourself. Or get help from a pro.

Nest Cam with floodlight is weather resistant, so you can install it outside. Swap out your existing basic floodlight and use the same wires for power, or get pro help for a worry-free installation.

Make the floodlight yours.

Adjust brightness and set the light to turn on or off at different times of day or night with a customized Routine.[1]

Personalized features require additional enrollment and setup.

Quickly take action.

Know more about what's happening with relevant alerts.[1] If you get an alert about an unwanted visitor or animal, you can speak up through the camera to help drive them away.

Talk through the camera.
Don't just watch. With Talk and Listen, speak through your security camera from anywhere.[2]

Control it if you're away.
You can turn on the lights remotely to deter any unwanted persons or animals, whether you're home or not.[3]

Some features, including mobile notifications, remote control, video streaming, and video recording, require existing internet and Wi-Fi.

Control your home security camera with your voice.

Nest Cam works with Nest Hub displays to give you simple smart home control.[1] View the live feed with a voice command or a tap on the display.

See what's happening on the dashboard.
With Live View, Nest Cam lets you see your live feed on the Nest Hub display. You can also zoom in to get a closer look.

Just ask Google.
Turn on the lights or view the video feed using just your voice. Say things like, "Hey Google, show me the backyard."[2]

Image simulated. Their first sold separately.

Image simulated. Familiar face alerts if face drawn a selection (sold separately). Not available for Nest Cams used in Illinois. To be based on approved for search complaints and other factors, and may not be available in all areas. Wireless service may not be reliable for emergency communications. The 911 feature will require a Nest app. Familiar face is related unless you provide during setup of this feature. 24/7 video recording requires a power connection. Some features require internet and subscription.
