

HR Pro Series Micro VGA HD15 plug to plug w/audio cable

Comprehensive HR (High Resolution) Pro Series Cables are “Comprehensive Classic” professional grade cables that provide excellent performance and value. That’s why since 1974, they have been in use worldwide in stadiums, studios, stages, boardrooms, classrooms, schools, government installations and well, pretty much everywhere! HR Pro Series Cables cables are perfect for anyone looking for excellent quality at great price.

Comprehensive HR Pro series Micro HD15 VGA cables are perfect for those tight spaces where a full size HD15 connector would be too large. These micro HD15 male to male cables are true high resolution construction with three individually 95% shielded coaxes for maximum signal transfer and high resolution video and graphics. The entire cable is then 100% shielded with a foil shield to eliminate EM and RF interference, even over long distances. Comprehensive goes the extra mile with machined pins which ensures the strength of each pin, to make sure they do not bend or break as imitation cables often do. A stereo 3.5mm mini plug cable is integrated for easy connection of projectors, laptops and other equipment. HR Pro series cables provide thousands of connections and a lifetime of worry free use. UL and RoHS compliant. Lifetime Warranty.

VGA CABLES

Features

- Micro HD15 Male to HD15 Male
- Integrated 3.5mm stereo mini plug audio cable
- Designed to support high-resolution imaging up to QXGA 2048x1536
