ETX THE FULLY LOADED FLAGSHIP.

Premium EV components and QuickSmart DSP Pro make ETX the highest-performance portable speakers available today. Six models are available for the most demanding applications. Advanced protection processing and concert-grade construction make ETX stand apart as our fully loaded flagship.

EKX MAXIMUM SONIC IMPACT. MINIMUM EFFORT.

EKX delivers a step up in power and processing. Equipped with QuickSmart DSP Plus, it offers a level of flexibility and control that the competition cannot match: maximum sonic impact with minimum effort.

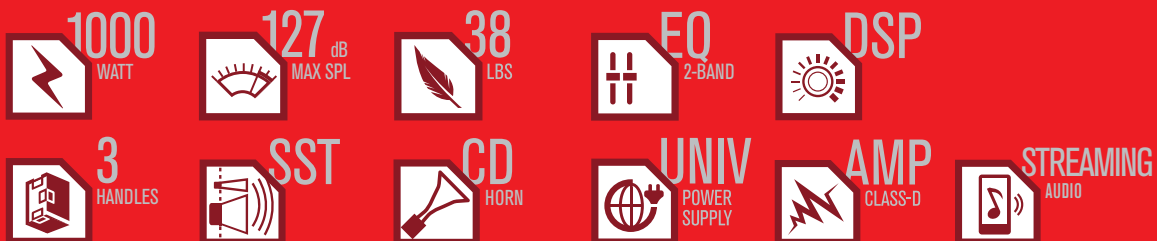

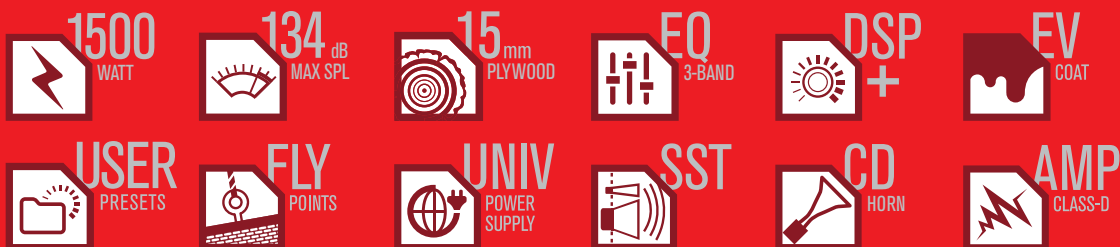

ELX200 DOES MORE. WEIGHS LESS.

The ELX200 series combines real professional audio quality, precision control, and robust, EV-engineered components in an ultra-lightweight package – a truly potent blend of performance and portability.

ZLX THE BEST-SELLING PRO AUDIO SPEAKERS IN THE WORLD.

Packed with features and incredibly lightweight, ZLX offers premium sound quality and DSP control that positions them as the best-value pro audio speakers available today. That's why ZLX are the #1-selling pro audio speakers in the world.
