

**300" Models**

**200" - 250" Models**

EliteProAV's **Tension Pro Series** is a large-venue motorized retractable projector screen. It features superior flatness using a tab-tensioned system design and is available in sizes from 200" - 300" in a 16:9 (HDTV) aspect ratio. Standard accessories include IR/RF remote controls, and a 12-volt trigger to synchronize the screen's operation with the projector's power cycle. The **Tension Pro** is ideal for projection presentations in auditoriums, gymnasiums, or any other large venue indoor environments.

### Screen Material

- CineWhite® UHD 1.15 Gain (tensioned matte white) front projection surface
- ISF Certified for accurate color points, color temperature and dynamic range
- Wide diffusion uniformity allows viewers to enjoy a clear bright picture from any angle
- 4K/8K Ultra HD and HDR Ready
- Standard black masking borders absorb projector overshoot while enhancing visual contrast
- Available in the following diagonal sizes:
  - 200", 235", 250", and 300" in 16:9 aspect ratio

### Control System

- Internal Radio Frequency (RF) /Infrared (IR) receivers with remotes included
- Infrared IR extended "eye" sensor - ideal for concealed installations
- 12-volt trigger included synchronizes the screen's UP/DOWN operation with the projector's power cycle

### Quality & Reliability

- Tubular motor allows swift operation with a superior weight tolerance and operational lifespan
- 5-year premium warranty

### Design & Installation

- Heavy-duty aluminum black casing
- Tab-tensioned design provides a flat and taut projection surface ideal for use with standard or (ultra) short throw projectors
- Dual wall/ceiling mounting points on 200", 235", and 250" models
- Ring bolts included on metal casing for suspended ceiling installation (300" model only)
- Comes fully assembled for plug & play operation with no tools or assembly required.

Remotes Kit included
