

Jonard's semi-flush cut pliers are made of heat treated chrome vanadium steel with induction-hardened cutting edges for maximum strength and durability. These semi-flush cut pliers feature the following:

- Close cut design can be used to trim conductors from 710 connector modules without leaving exposed conductors
- Ideal for close trimming of gates and sprue on injection molded plastic parts
- Jaw design allows easy use in confined spaces
- Spring-loaded mechanism for automatic opening
- Ergonomically designed handle with dipped plastic grip for greater comfort and torque
