

Yale Works for YouSM
in small business
applications.

The first small business connected locking solution

Introducing nexTouch™

User friendly technology makes nexTouch, a suite of ANSI/BHMA Grade 1 next generation locks, an effortless integration into the small business market.

nexTouch™

- ▶ Designed for small business applications
- ▶ Integrates seamlessly with existing alarm and automation systems
- ▶ Easy to install
- ▶ Enables easy and remote management of access rights
- ▶ Reduces cost of rekeying
- ▶ Provides real-time notifications
- ▶ Earn additional revenue by including access control with intrusion services
