

**PROVIDE A SAFE
ENVIRONMENT
FOR YOUR CUSTOMERS**

Double Protection

Secure your facilities by using the FTC-1000, which detects any abnormal temperatures. It will also detect if a mask is worn to ensure the regulation is followed. You can also increase the security level by setting up the facial recognition mode.

This station is the perfect solution to manage customers' entrances and allows you to act quickly.

No Pressure & User-friendly

The FTC-1000 detects temperature while leaving your customers at ease.

TEMPERATURE DETECTION

MASK DETECTION

FACIAL RECOGNITION

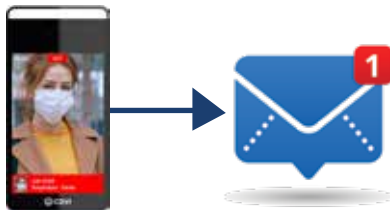

Be Proactive

30 000 FACES

Recognizes up to 30,000 faces

EMAIL NOTIFICATION

Automatically sends email notification when an abnormal temperature is detected or when the mask is missing.

REPORT

It's possible to create reports and to instantly view on your computer the temperature of everyone who comes in front of the FTC-1000.

by Preventing

DETECTION DISTANCE

1.5' to 4'
