Entry Standard Monitor

Introducing the next generation standard monitor, a versatile video intercom monitor that offers a feature rich and cost-effective solution for a range of applications. Compatible with Net2 systems, as well as working as part of a standalone video intercom solution, the new Entry Standard monitor is the ideal choice for any building.

The new standard monitor will replace the existing Entry monitor in our video intercom portfolio.

✓ Enhanced User Experience

- Clear user interface on a 4.3" capacitive touch screen
- Excellent audio quality, full-duplex voice communication with echo cancellation
- High contrast screen ensures monitor is easy to read
- Line-out for use with T-Loop antenna for users with hearing aids**

★ Contemporary Design

- Smart, sleek design to fit discreetly into any surroundings
- Personalized experience with 14 theme designs
- Premium user interface with call and event log

Next Generation Technology

- More features, new look, better price
- Compatible with concierge management*
- Action buttons for additional functionality, open secondary doors or unlock an external gate
- Call snapshot captures an image of missed visitors

Ultimate Versatility

- Compatible with Net2 systems, also works as part of a standalone solution
- Universal wall or desk mounting, compatible with a range of backboxes
- Available with or without a handset
- Ideal for a range of premises; schools, hospitals, offices, condos and apartments

Undeniably Simple

- Quick & easy installation – a true plug & play solution
- Intuitive user interface
- Quick visual verification of visitors
- Simple integration with doorbell input

*When used with the Entry Premium monitor.
The standard monitor cannot function as the concierge monitor.
** T-loop antenna must be purchased separately from a third-party
