HID Proximity Cards and Fobs

Key Features

- Offers proximity card technology with photo identification capability on a single access control card
- Same size and thickness as a standard credit card
- Kantech Secure Format (KSF)

Proven, Reliable Technology

HID proximity cards feature a graphics quality surface optimized for Photo ID printing and come available in standard PVC or a composite polyester/PVC construction for more demanding high wear and tear environments.

Kantech Secure Format (KSF)

HID readers recognize over 16.7 million unique codes using Kantech's KSF cards to provide increased security and prevent against card duplication.
