

In the Evolution of Security Integration ONE evolved.

INTEVO Integrated Security Platform

INTEVO Integrated Security Platform

INTEVO integrates access control, IP video and intrusion into one common and powerful platform to deliver a holistic security solution. It's pre-loaded with Kantech's EntraPass Corporate Edition security software plus exacqVision video management software; and includes support for DSC PowerSeries intrusion alarm panel integration. It is pre-configured to support EntraPass Go mobile app and the EntraPass Web remote user platform. INTEVO is easy to configure and includes a customized dashboard for easy system management.

An intuitive all-in-one security platform

Integration Evolution

INTEVO is an integrated security appliance that includes the Kantech EntraPass Corporate Edition software and exacqVision video management software providing real-time video monitoring and playback while also including support for DSC PowerSeries intrusion panel integration. Its pre-installed and pre-integrated design minimizes set up time and provides a unique integrated user experience to manage your security system.

All-In-One Comprehensive Security Solution

INTEVO integrated security platform with exacqVision inside reduces hardware costs and the amount of rack space needed with the video management client pre-loaded within the unit. The solution comes with pre-registered EntraPass Corporate Edition security software at no additional cost. Both EntraPass and exacqVision can be updated via INTEVO's cloud connection or USB-driven boot wizard – auto update features for both EntraPass and exacqVision are available from the internet when configured for the first time.

The Freedom to Manage Security in Real-Time, Anytime, Anywhere

With EntraPass Go, you can manage your security, in real-time, any time, from anywhere. You can control over 20 security tasks, including creating/ managing cards, locking/ unlocking doors, request reports and more – All with just a few taps on your mobile device. So simple, so powerful. Download EntraPass Go from the App Store or Google Play.

The Synergy of ONE

INTEVO unites access control, IP video and intrusion with a scalable solution aimed at small to mid-sized enterprises. Used as a standalone system or as part of complete security solution incorporating other Johnson Controls security products. With the integration of access control, video and intrusion into one system you're able to improve response time for critical alarms and events.

Security Evolved

Think of INTEVO as the safety belt for your enterprise. When

great ideas come together to make your world safer, easier and more reliable, that's when you streamline security administration and save money.

On the Plus Side

Security management takes a great deal of staff time and business resources to deploy. INTEVO helps you to simplify and streamline all your security procedures, minimizing setup time. On the plus side, its security made simple – right out of the box. Join the integration evolution with INTEVO today!

About Johnson Controls

Johnson Controls is a global diversified technology and multi-industrial leader serving a wide range of customers in more than 150 countries. Our 120,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat.
