# WIN-PAK® 4.9

Integrated Security Solution

Honeywell's WIN-PAK 4.9 software solution provides a cost-effective way to integrate and manage Access control, Video surveillance, and Intrusion detection through a single interface.

WIN-PAK 4.9 provides an intuitive browser-based interface allowing users to perform common access control actions from virtually anywhere enabled with Video verification and surveillance, secured by Intrusion detection system and Fire notifications. WIN-PAK 4.9 can be easily scaled from a single site up to a multi-region, enterprise-level solution with multiple Accounts and Sub accounts, all without placing restrictions on the number of users or sites being managed.

WIN-PAK 4.9 supports direct integration with HID's Origo 2.0 Mobile Access® and Suprema® Biometrics.

Using WIN-PAK's API your software developers can create custom integrations to meet your integration needs such as point-of-sale systems, Visitor management, Elevator control, HR applications.
