

Winsted®
Control Room Consoles

M-VIEW™
MONITOR WALLS

The image shows a modern control room with a long, curved white desk. Behind the desk is a massive wall of monitors, each displaying different security camera feeds. The room has wood-paneled walls and a grey carpet. Several ergonomic office chairs are positioned along the desk. The overall atmosphere is professional and high-tech.

PRODUCT FEATURES AND HIGHLIGHTS

Stock and Custom Monitor Walls

Choose an in-stock monitor wall that is preconfigured and ready to ship or let Winsted design a custom monitor wall built to your specific monitor configuration.

Large Flat Panel Mounts

Our heavy-duty large monitor mounts combine a low profile design with integrated security features. The mount features a rapid leveling system, quick connect/disconnect installation, fingertip-tilt, and a pullout bottom for convenient cable access. Allows for portrait or landscape flat panel installation.

Standard VESA Mounts

Universal VESA mounts easily attach flat panel monitors to the M-View Monitor Wall and provide smooth pivot and pitch adjustments for different viewing angles and ergonomic needs. The VESA mounts move freely along the M-View framework and are available to support almost any monitor.

1-1/2" x 3" Exterior Frame

The exterior framing is constructed of 1-1/2" x 3" extruded aluminum for superior strength and modularity. Custom frames can be manufactured to any height and length.

Power Strips

Ten, eleven, or twenty outlet power strips are available with on/off switches and circuit breakers. Power strips mount to the rear of the horizontal and/or vertical frame sections.

Black Anodized Finish

All M-View frames feature a black anodized finish that fits seamlessly into any environment. When installed, the M-View frame blends in with attached monitors, creating a pleasing shadow effect. Clear and custom anodized colors are available.

1-1/2" x 1-1/2" Interior Supports

The interior supports are constructed of extruded aluminum for superior strength and modularity. Custom frames can be manufactured to any height and length.

Cable and Wire Management

Multiple raceway channels are available for wire management. Run the cables horizontally or vertically using model M1032 (scored walls). Use model M1030 (solid walls) to run cables vertically to the floor.

Modular and Expandable

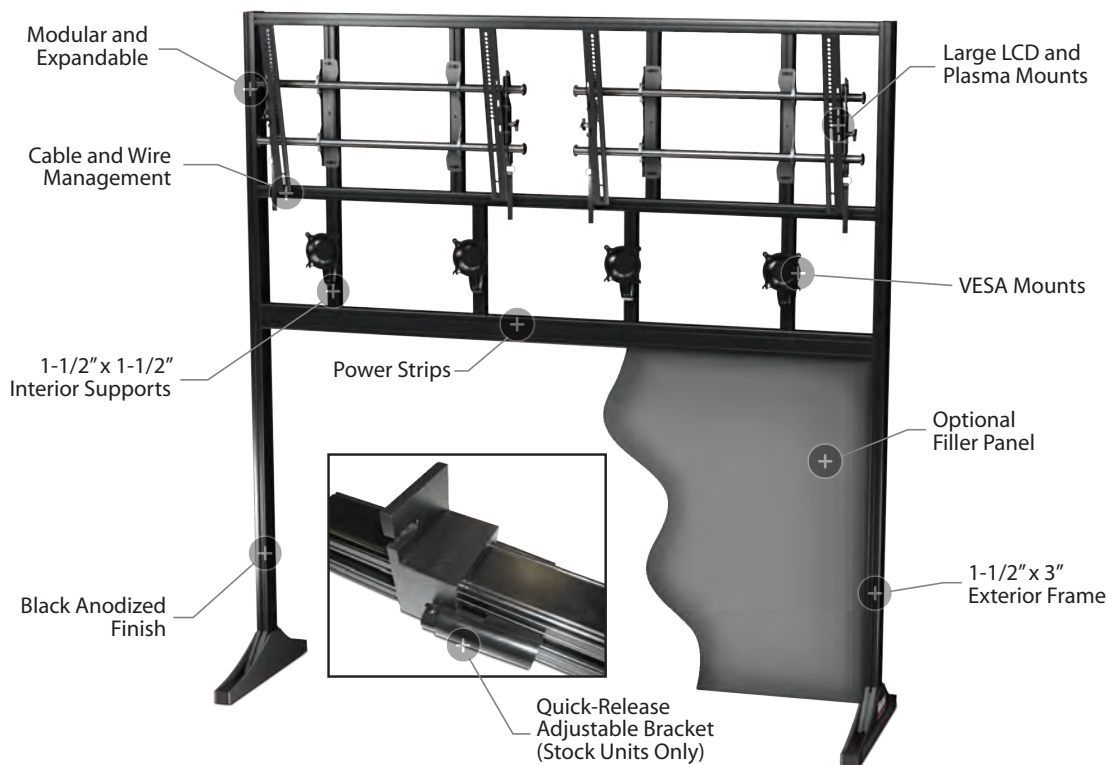

All M-View monitor walls are designed to support your monitor configuration. The M-View can be expanded and reconfigured based on your changing needs.

Optional Filler Panel

Complete your M-View with custom filler panels, available in a variety of colors and materials. Can be cut to provide access to electronics or vertical rack.

Quick-Release Adjustable Bracket

Our quick-release bracket makes adjusting and reconfiguring your monitors fast and easy on our stock monitor walls.

M-VIEWTM MONITOR WALLS

FEATURES

- Light Weight and High Strength
- Easy to Wire and Maintain
- Adapts to Changing Technology
- Prevents Damage to Interior Walls

M-VIEW MONITOR WALLS

Winsted's M-View monitor wall, in-stock or custom built, is flexible in design and completely modular. M-View is fabricated from light-weight, high strength extruded aluminum with a black anodized finish. The monitor wall can support virtually any monitor configuration and can be designed as an inline, concave or convex mounting solution. The M-View seamlessly integrates technology and space to optimize viewing angles.

If you require a custom-built monitor wall to support your specific monitor configuration, or to fit in your unique space, please contact Winsted and we will provide the perfect solution. Each custom M-View is designed and manufactured from the ground up to meet your specifications. The M-View is fabricated from light-weight, high-strength extruded aluminum and will support any size flat-panel monitor.

M-VIEWTM RIZE

SIT/STAND MONITOR WALL

M-View Rize is the perfect compliment to any console system, including all Impulse sit/stand consoles. As the operator changes the height of the console, the M-View Rize is able to adjust the height of the monitors on the wall in order to maintain proper ergonomics and optimal sight lines. Available in two standard configurations. We offer a 43" wide configuration for a single monitor and an 83" wide configuration for dual monitors.

M-VIEW RIZE MONITOR WALLS

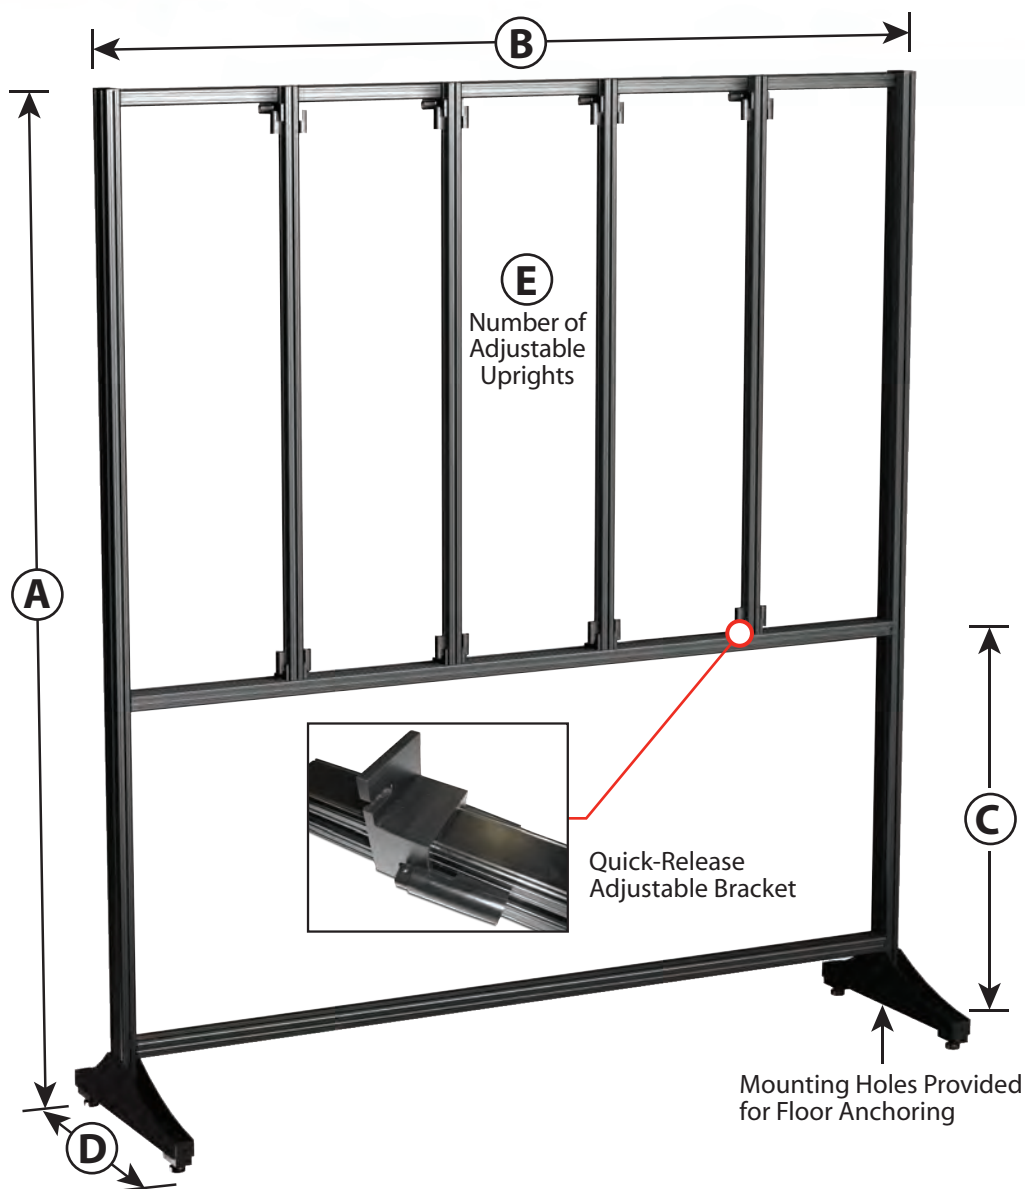

MODEL#	DIMENSIONS
M1082	87"H x 43"W x 24-3/8"D (2210 x 1092 x 619mm)

WINSTED EQUIPMENT LAYOUT SOFTWARE

THE MOST ADVANCED 3D CONSOLE DESIGN SOFTWARE IS HERE!

WELS IS A WINSTED-EXCLUSIVE CONSOLE DESIGN SOFTWARE TOOL THAT MAKES CONTROL ROOM DESIGN AND LAYOUT FAST, EASY, ACCURATE AND FUN!

This interactive, user-friendly, 3D console design software program lets you use Winsted consoles and furniture to quickly design control room solutions that meet your needs. WELS is easy to use - and requires no additional design/CAD software to operate.

WELS4 FEATURES

- WELS 4 is a FREE Winsted-exclusive tool. With it you can design your control room with any of our Consoles and Desks, Vertical Racks, M-View Monitor Walls and Conference Room Tables.
- On-screen toolbars and windows allow quick selection of products and accessories.
- Built-in control room designer lets you create a room to match your exact floor plan.
- Generate part lists and design specification sheets.
- Place multiple consoles and command centers anywhere in the room.
- Change the color of the work surface and side panels to show how the console will look in your room.
- Smart design programming helps you place parts where they belong.
- Accessorize designs with monitors, LCDs, DVD players, keyboards, blank panels, doors and more.
- WELS 4 is a true 3D design program. You can view your designs from any vertical or horizontal angle.
- WELS 4 is a stand-alone program requiring no additional software.
- Export your design to DWG or DXF to import into your CAD program or export to JPEG format to use in presentations and design discussions.

WELS4 SYSTEM REQUIREMENTS:

Operating System: Microsoft Windows - Windows XP - or newer
