# Introduction

## PRODUCT OVERVIEW

- The SHD-315F Kit provides an economical integrated solution for indoor suspended ceiling applications for the PNM-9084RQZ & PNM-9085RQZ cameras.

# Contents

### COMPONENT LIST [FIGURE 1]
A. Safety Tether (4)
B. Ceiling Tile Support Plate
C. 8-32 x 5/16" Pan Head Screws (4)
D. Ceiling Tile Insert

# INSTALLATION

**FIGURE 2**

- Remove existing ceiling tile from desired mounting location.

- Attach Ceiling Tile Support Plate (B) to ceiling tile grid.  The tabs will slip down over the grid edge as seen in [FIGURE 2].

- Attach the 4 safety tethers (A) to the red  iron, as seen in [FIGURE 3] by threading the end of the tether through the looped end.
  Make multiple wraps around the red iron to make sure there is no slack in the tethers.
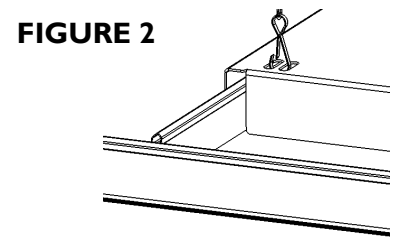

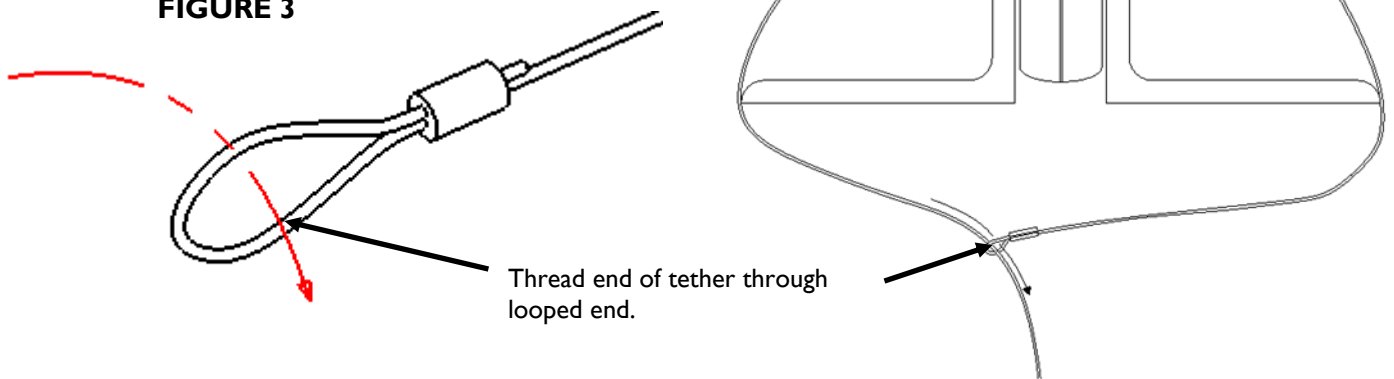

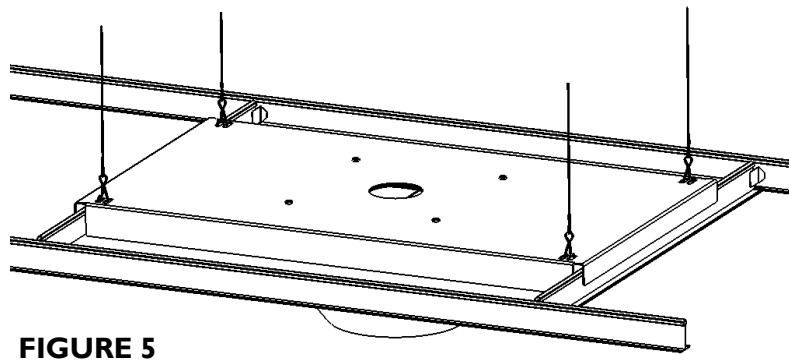

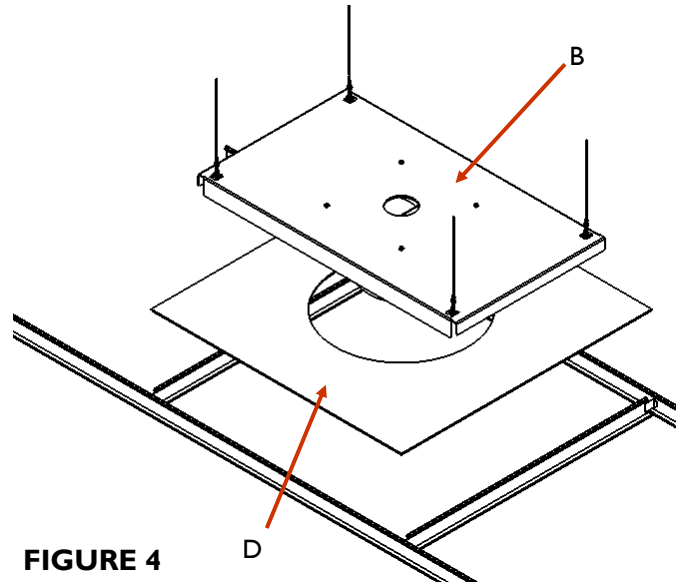

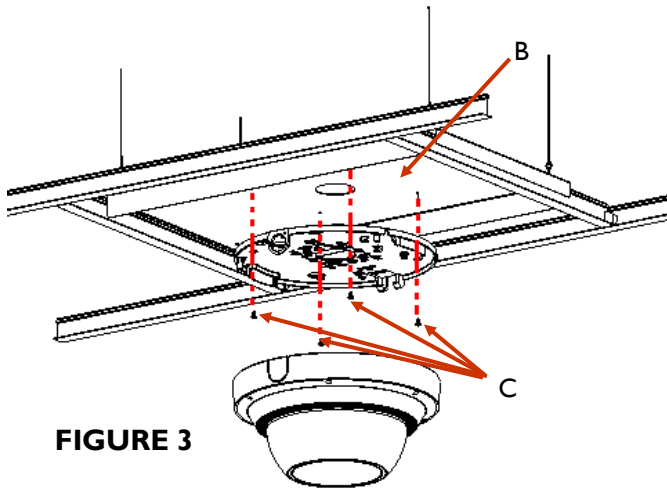

**FIGURE 3**

Thread end of tether through looped end.

# INSTALLATION

- Mount the camera onto the Ceiling Tile Support Plate (B) using the included #8-32 x 5/16" screws (C).
  (See Camera Installation Instructions). **[FIGURE 3]**

- Make camera power and network connections.

- Lift camera/bracket assembly back off of the grid and drop in the ceiling tile insert (D) in **[FIGURE 4]**, then replace
  assembly back on to the grid as shown in **[FIGURE 5].**
