

6150RF

Fixed Language Integrated Keypad/Transceiver

Add wireless technology to any installation with Honeywell Home 6150RF keypad. It offers the unbeatable combination of attractive, convenient features and competitive value in a single, quick-install package. The integrated design solves even the trickiest installation challenges and reduces costs by letting you add full wireless capability to any compatible VISTA™ control—without additional wiring or sacrificing zones.

Dealers can add the 5828 and 5828V wireless keypads to VISTA for the first time, presenting a tremendous upsell opportunity by letting them offer their customers secondary wireless keypads on every installation with virtually no install time.

With Door Attached

Without Door

* 5881ENM is not available in Canada
Wi-Fi® IEEE 802.11 B/G/N radio

FEATURES

- 6150 Fixed Language Keypad
- Built-in 16-Zone wireless transceiver
- Compatible with 5828 and 5828V wireless keypads
- Single four-wire run is all that's required

It is the ideal choice where wireless keys are to be used:

- Keys can be programmed at the panel, just as they would with the 5881ENM*
- Keys can be enrolled locally at the keypad, without taking up additional zones at the control

- Fully compatible with all 5800 wireless devices including bidirectional
- On-board single relay provides a low cost solution for opening garage doors.

Stylishly Designed

- Sleek white design blends with any décor
- Contoured, removable door lets customers customize the keypad for the look they want
- With the door closed the keypad has a smooth, unobtrusive appearance

Easy to Operate

- The Fixed Language display is easy to read, with large characters and simplified descriptions
- The sounder beeps to help identify security system status
- Comfortable soft-touch keys labeled with simple commands are illuminated for nighttime visibility
- Four larger function keys can be programmed for one touch operation and are accessible even when the door is closed
