

## Touch of Brilliance

Elegantly Simple Security System Control

# A Touchscreen Makes It Easy

It Also Complements, Even Enhances Your Home's Decor

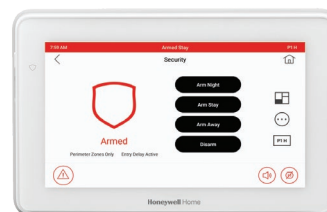

## Easy, Enhanced Safety and Security

This Touchscreen Keypad makes using your security system incredibly easy and intuitive. It simplifies those features you use every day, like arming or disarming and streamlines those you may use only occasionally – like bypassing zones or adding or deleting user codes.

Along with its vivid display, the Touchscreen Keypad confirms the status of your system in a clear spoken voice. When you're ready to leave, it states "Armed Away", letting you exit your home quickly, without even pausing to check the screen. It also instantly alerts you to the nature and location of an alarm, helping you and your family promptly and properly respond to an emergency.

Stylish and innovative, the Touchscreen Keypad will be a beautiful and graceful addition to your home. It can also serve as an elegant digital picture frame, displaying memorable family photos or video scenes when not used.

Your Touchscreen at home works in harmony with Resideo's Total Connect smart phone app, assuring that you will enjoy the same consistent experience at home or away.
