

**TSD-GPN1200  
Sound Masking Generator**

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
Telephone: 800.876.3333 • Fax: 800.765.3435

## Description

The AtlasIED TSD-GPN1200 sound masking generator is perfectly suited for basic sound masking systems. The analog topology design eliminates repeating cycles commonly found in other manufacture's low cost digital designs.

The TSD-GPN1200 includes a selectable pink or white noise generator and incorporates a variable balanced output to match input requirements of AtlasIED equalizers and amplifiers.

In addition to the line level output, a 4W (70V Masking System) output is provided to power up to six masking loudspeakers tapped at .5W each. A variable hi-cut filter with operating range between 1kHz and 8kHz at a slope of 6dB per octave supports equalization requirements for most basic 4W amplifier Sound Masking systems. Both outputs may be used simultaneously allowing large zones to be addressed with external equalization and amplification while a smaller zone is powered by the internal amplifier with spectrum control from the internal high cut filter.

The TSD-GPN1200 is part of a full line of AtlasIED Time Saving Devices. These compact (1.5" x 4" x 2.75") units are designed to solve some of the common audio system problems in the easiest and in the most efficient and cost-effective way. All models are made from high quality components and include removable individual I/O connectors for quick and precise wiring, separate ground terminals for all I/Os assuring secured connections, and removable level controls that can be replaced with tamper-proof security covers. The TSDs are highly efficient and meet most energy standards as one 24V DC power supply (available separately) can power multiple Atlas Time Saving Devices.

## Features

- Analog Topology
- Selectable Pink or White Noise Generator
- Variable Level Control
- Variable Low Pass EQ
- Balanced Line Output
- 4W Speaker Output
- Multiple Mounting Configurations
- Cable Management System
- Separate Ground Connections
- Removable Phoenix Style I/O Connectors
- Meets Most Energy Standards
- Compact Chassis Design

## Audio Applications

- Sound Masking
- Security Masking
- Pink Noise Generator
- White Noise Generator

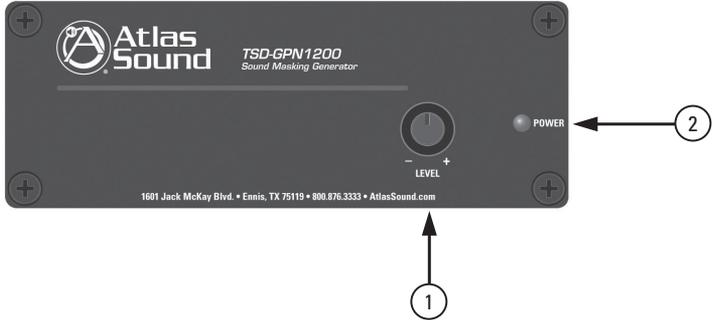

## Installation

- Call Centers
- Pharmacies
- Government Buildings
- Medical Facilities
- Open Office Environments
- Schools
- Industrial Facilities

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
Telephone: 800.876.3333 • Fax: 800.765.3435

## Front Panel Description

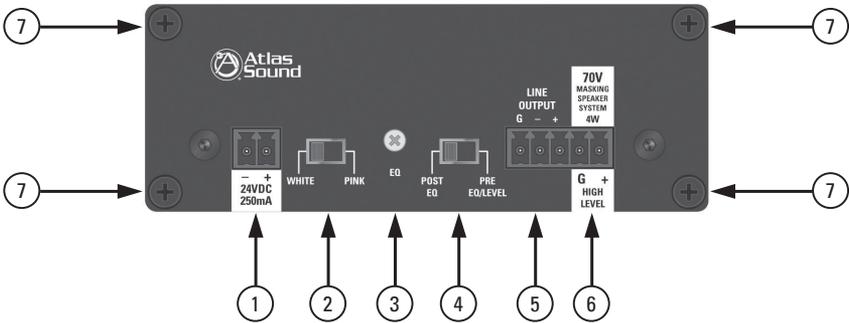

1. **Level Control** - Adjust the level of the masking signal at the High Level speaker output *and* at the Line Out if the Pre/Post switch is in the "Post" position. Turn clockwise to increase the signal level and counter-clockwise to decrease it. **Note:** The Level Control knob can be removed and replaced with a supplied security cover to prevent unauthorized adjustment.
2. **Power LED** - Illuminates Blue when 24VDC is present.

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
Telephone: 800.876.3333 • Fax: 800.765.3435

**Rear Panel Description**

TSD Input/Output connections are removable for easy system wiring. The connector has a 3.5mm pitch between pins.

- DC Power Input** - Each TSD that requires DC power comes with a 2 position connector for an external 24VDC power supply (sold separately). Because of the low power consumption, a single external power supply may power more than one TSD. Refer to the current requirements in milliamps to match with the appropriate power supply. **Note:** It is acceptable to exceed the current of the TSDs but NOT safe to use a power supply that is below the current requirement of the device.
- Noise Generator Selector** - Select the type of noise signal needed for your application. Most plenum masking uses pink noise when the ceiling has lay-in tiles. If you are masking under a raised floor or the ceiling is made from gypsum, it is recommended to use "white" noise.
- EQ Adjust** - Varies a low cut filter with a range of 1kHz to 8kHz at 6dB per octave. With this control turned fully clockwise, the filter will have no effect on the output signal. Rotate the control counter-clockwise to adjust the filter to your preferred masking spectra. This filter is used with a 1/3rd octave RTA (Real Time Analyzer) for final tuning of your sound masking system.
- Pre/Post Selector** - Determines whether the Line Level Output has the EQ and Gain Control in or out of the circuit. In "Pre" mode, the Gain Control and the EQ Control will have no effect on the Line Out, while in "Post" mode, both the EQ and Gain will effect the Line Output.
- Line Output** - A Balanced Line Level Output of the generator is present here. The connections between devices must be mated properly to the Output connector or signal loss and/or noise may be introduced. **Note:** Unbalanced line level inputs can be inserted by using the following wire configuration, tie (short) the (G) and (-) terminals together.
- High Level Output** - Connect up to six (6) 70.7V masking speakers when tapped at 0.5W each for a load no greater than 4W.

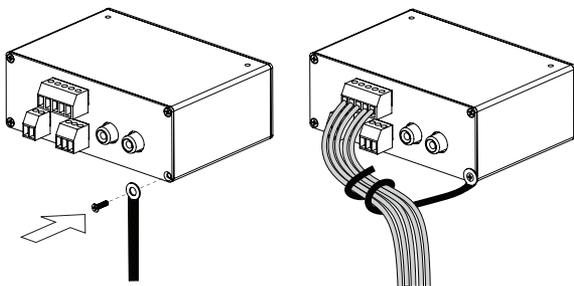

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
 Telephone: 800.876.3333 • Fax: 800.765.3435

- 7. Cable Management Retainer Points** - Each TSD includes two cable retainer straps for securing the included cable management retainers. Remove one of the rear panel screws, align the panel hole with a retainer and firmly tighten the screws.

## Cable Management

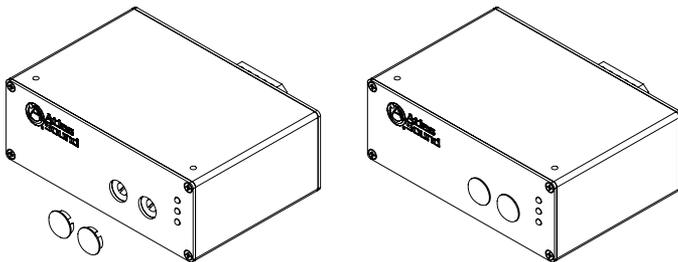

## Knob and Security Cover

All front panel level controls feature a removable knob that can be replaced with an included security cover. Follow these steps to prevent potentiometer damage or unwanted changes.

1. Knob Installation - Turn the potentiometer shaft fully counter-clockwise. Align the knob indicator to the lowest setting on the panel and the potentiometer shaft slot. Carefully press the knob onto the potentiometer shaft. Do not force or damage may occur to the potentiometer.

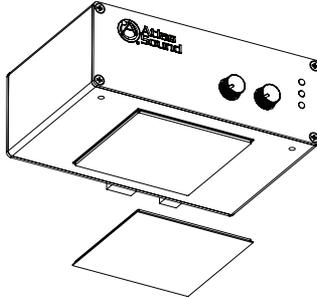

2. Security Cover Installation - Remove the knob from the panel and insert the cover. Small pliers may be required to remove the knobs. Align the security cover to the level control panel hole. Push the cover into the hole until it snaps into place. Do not force or damage may occur to the potentiometer.

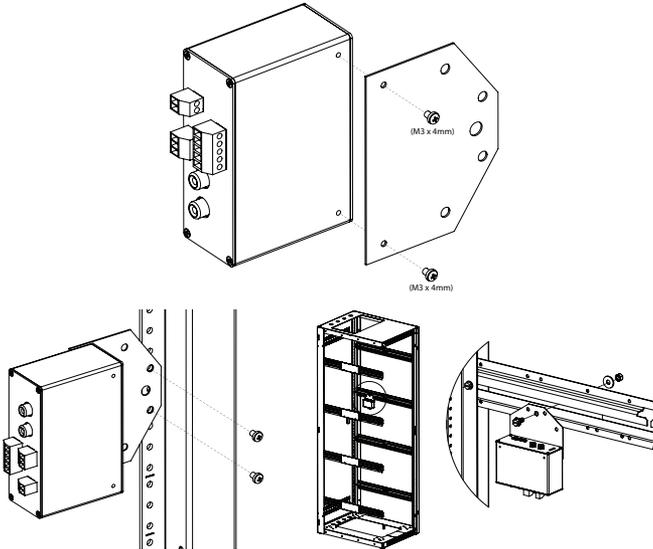

## Mounting

Listed below are the ways to mount the TSD and the optional accessories that can be purchased.

1. Velcro™ - Each unit includes two 2" x 2" pieces of industrial-grade Velcro™ with adhesive backing to adhere to any flat surface. Clean all surfaces before applying the adhesive side of the Velcro™.

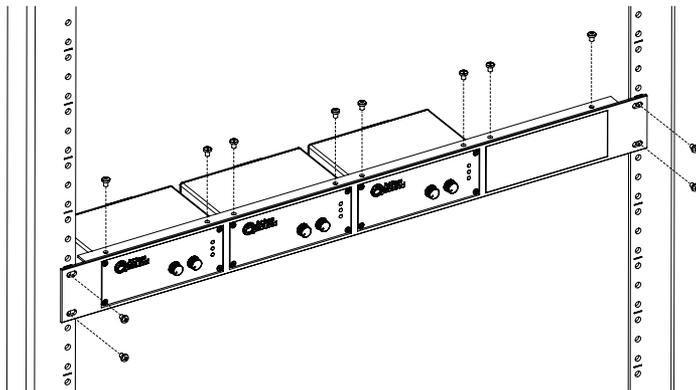

2. Multi Mount Plate - Each TSD includes a versatile multi-position mounting plate. This plate allows the TSD to be mounted to any surface; but is ideal for use with rear rack rails or side rack hat channels. Use the included M3 x 4mm screws to install the plate on the TSD. **Note:** Only use the included M3 x 4mm screws as other screws may be too long and will cause internal damage to the TSD. The multi-position mounting plate is a new addition being included with TSDs. If the TSD being used did not include the mounting plate, contact AtlasIED customer service at 1-800-876-3333.

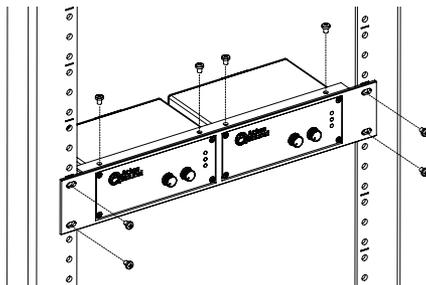

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
Telephone: 800.876.3333 • Fax: 800.765.3435

## Optional Mounting Accessories

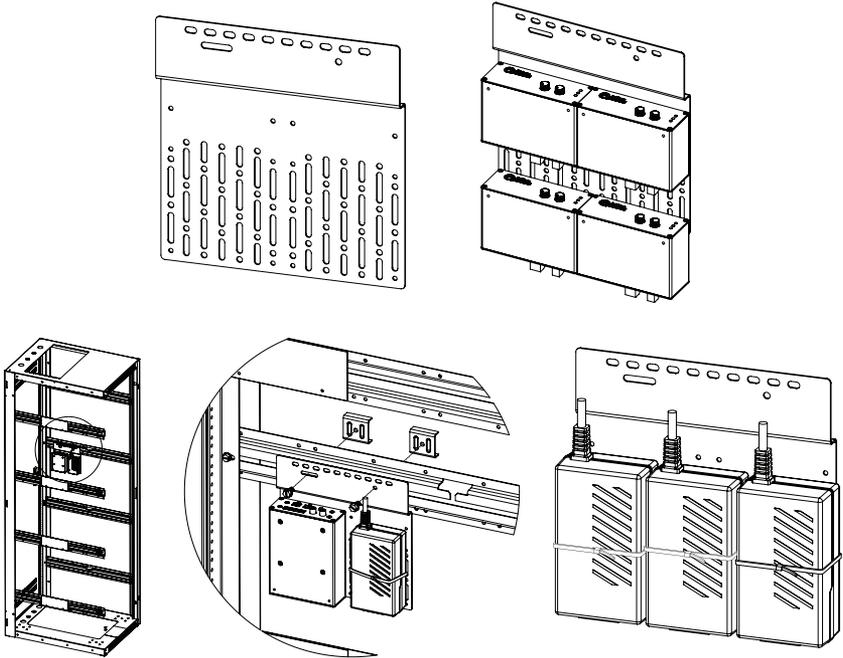

1. TSD-RMK 19" Width Rack Mount Kit - For 19" rack mounting, AtlasIED offers an optional rack mount kit, the TSD-RMK. This rack mount kit can support up to four TSD units. The kit includes three blank panels designed to fill any unused slots. Use the included hardware to mount the TSD into the rack mount kit using the top mount screw holes on the TSD.

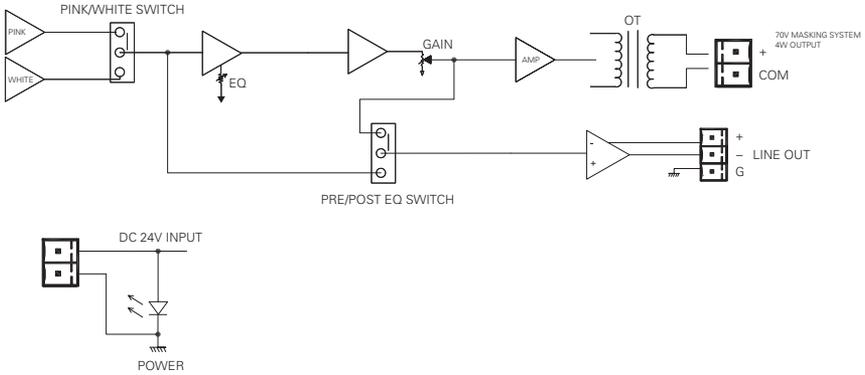

2. TSD-RMKHR Half Width Rack Mount Kit - AtlasIED offers an optional rack mount kit that can be used in half width rack applications including the AtlasIED WMA-HR and AWR-HR models. The TSD-RMKHR can support up to two TSDs. Included is an extra blank panel to fill one of the spaces if only one TSD is being used.

3. TSD-RRMK Rear Rack Mounting Kit - For complete flexibility in mounting a TSD or TSD external power supplies the optional TSD-RRMK is available. The TSD-RRMK can support mounting of either two larger TSDs with external power supplies or up to 4 TSD models. **Note:** Only use the included M3 x 4mm screws as other screws may be too long and will cause internal damage to the TSD.

**Block Diagram**

**Specifications**

Description	Sound Masking Generator/Amplifier
Chassis Color	Black
Chassis Material	Aluminum
<b>Inputs</b>	
Noise Generator	Internal Pink or White Selectable
<b>Outputs</b>	
Type	Qty 1, Balanced Line
Connection	Removable 3 Position Captive Screw 3.5mm Spacing
Impedance	300Ω Balanced, 150Ω Unbalanced
Line Output Level	Maximum Output 500mV
Type	Qty 1, Speaker Out 4W & 70.7V Masking System Speakers
Connection	Removable 3 Position Captive Screw 3.5mm Spacing
Line Output Level	Maximum Output 4W
<b>Controls</b>	
Level Control	Qty 1, Removable Knob with Security Cover
Noise Generator Select	Pink or White
Line Out Select	Pre or Post EQ
EQ Adjust	Recessed Screw Driver
<b>Indicators</b>	
Power	Blue

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
 Telephone: 800.876.3333 • Fax: 800.765.3435

## Electrical

Topology	Random Analog
Frequency Response	20Hz - 20kHz Line Out Pre EQ Only
EQ Filter	High Cut, Variable, 1kHz - 8kHz/6dB

## Power Requirements

Voltage	24VDC
Average Power Consumption	100mA
Average Power Consumption	2.4W
Dimensions	H 1.5" (39mm) x W 4" (101mm) x D 2.75" (70mm)
Weight	6oz, .165kg

## Included Accessories

Velcro™	Industrial-Grade
Multi-Mount Plate	Qty 1, Includes Two (2) M3 x 4mm Screws
Cable Retainers	Qty 2
Level Control Knob	Qty 1
Level Control Security Cover	Qty 1

## Optional Accessories

TSD 24VDC	Power Supply
TSD-RMK	1 RU 19" Width Rack Mount Panel (Supports 4 TSD Units)
TSD-RMKHR	1 RU Half Rack Width Panel (Supports 2 TSD Units)
TSD-RRMK	Rear Rack Mounting Kit

1601 Jack McKay Blvd. • Ennis, Texas 75119 U.S.A.  
Telephone: 800.876.3333 • Fax: 800.765.3435

## Limited Warranty

All products manufactured by AtlasIED are warranted to the original dealer/installer, industrial or commercial purchaser to be free from defects in material and workmanship and to be in compliance with our published specifications, if any. This warranty shall extend from the date of purchase for a period of three years on all AtlasIED products, including SOUNDOLIER brand, and ATLAS SOUND brand products except as follows: one year on electronics and control systems; one year on replacement parts; and one year on Musician Series stands and related accessories. Additionally, fuses and lamps carry no warranty. AtlasIED will solely at its discretion, replace at no charge or repair free of charge defective parts or products when the product has been applied and used in accordance with our published operation and installation instructions. We will not be responsible for defects caused by improper storage, misuse (including failure to provide reasonable and necessary maintenance), accident, abnormal atmospheres, water immersion, lightning discharge, or malfunctions when products have been modified or operated in excess of rated power, altered, serviced or installed in other than a workman like manner. The original sales invoice should be retained as evidence of purchase under the terms of this warranty. All warranty returns must comply with our returns policy set forth below. When products returned to AtlasIED do not qualify for repair or replacement under our warranty, repairs may be performed at prevailing costs for material and labor unless there is included with the returned product(s) a written request for an estimate of repair costs before any nonwarranty work is performed. In the event of replacement or upon completion of repairs, return shipment will be made with the transportation charges collect.

EXCEPT TO THE EXTENT THAT APPLICABLE LAW PREVENTS THE LIMITATION OF CONSEQUENTIAL DAMAGES FOR PERSONAL INJURY, ATLASIED SHALL NOT BE LIABLE IN TORT OR CONTRACT FOR ANY DIRECT, CONSEQUENTIAL OR INCIDENTAL LOSS OR DAMAGE ARISING OUT OF THE INSTALLATION, USE OR INABILITY TO USE THE PRODUCTS. THE ABOVE WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

AtlasIED does not assume, or does it authorize any other person to assume or extend on its behalf, any other warranty, obligation, or liability. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

## Service

Should your Atlas TSD require service, please contact the AtlasIED warranty department at 1-877-689-8055, ext. 277 to obtain an RA number.
