

FZ151 Inline Fuse Holder and 4 Amp Fuse

NOTE: The **FZ151** assembly comes with a 4A fuse supplied.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

For each battery backup using the **BA001** (or similar) batteries, contractor shall furnish one Alpha Communications® model **FZ151** inline fuse holder and 4 Amp fuse, or approved equal.

The **FZ151** shall feature a Black thermoplastic fuse holder with spring loaded brass contacts and a 13" Red insulated #16AWG stranded wire. A 4A fuse shall be supplied as well.

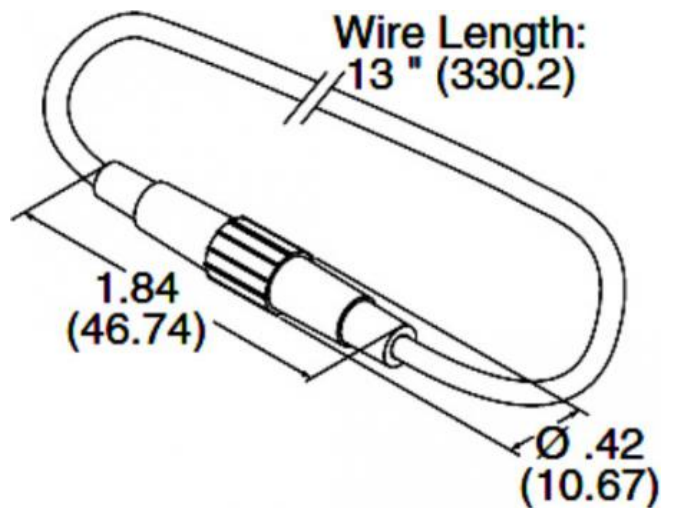

Contractor shall observe all local and national electrical and building codes.

FZ151 INLINE FUSE HOLDER AND 4 AMP FUSE

The Alpha Communications® model **FZ151** inline fuse holder and 4 Amp (model# **50T-4A**) fuse is used primarily with our nurse-call and emergency-call systems when using the **BA001** (or equivalent) batteries for battery back-up capabilities.

Typically it can be used with our AlphaEcall™, CM800, **DS100**, NC110N, **NC150N**, **NC150R**, **NC200N** and other similar systems when using the **BA001** (or similar) batteries.

Whenever using the **BA001** batteries with a battery charger, it is highly recommended that the **FZ151** inline fuse holder and 4 Amp fuse be installed.
