Projector not included.

workITdesk interactive table

The ConenMounts *workITdesk* is a mobile, motorized height and tilt adjustable desk surface made interactive via attached Epson® ultrashort throw interactive projector.

The *workITdesk* provides a large 50" x 67" table top with 74" diagonal dry erase and magnetic projection surface applied.

Surface and projector can be moved smoothly from table mode to wall display or in any required mid-point position.

Retracted the *workITdesk* fits through a standard doorway with the projector still connected. Heavy-duty metal castors allow for the unit to be easily moved to different locations.

Its unique features and the flexibility in both use and deployment make the *workITdesk* a compelling small group collaboration solution for promoting higher levels of engagement throughout the group, whether in class rooms or in business environment.

Included:

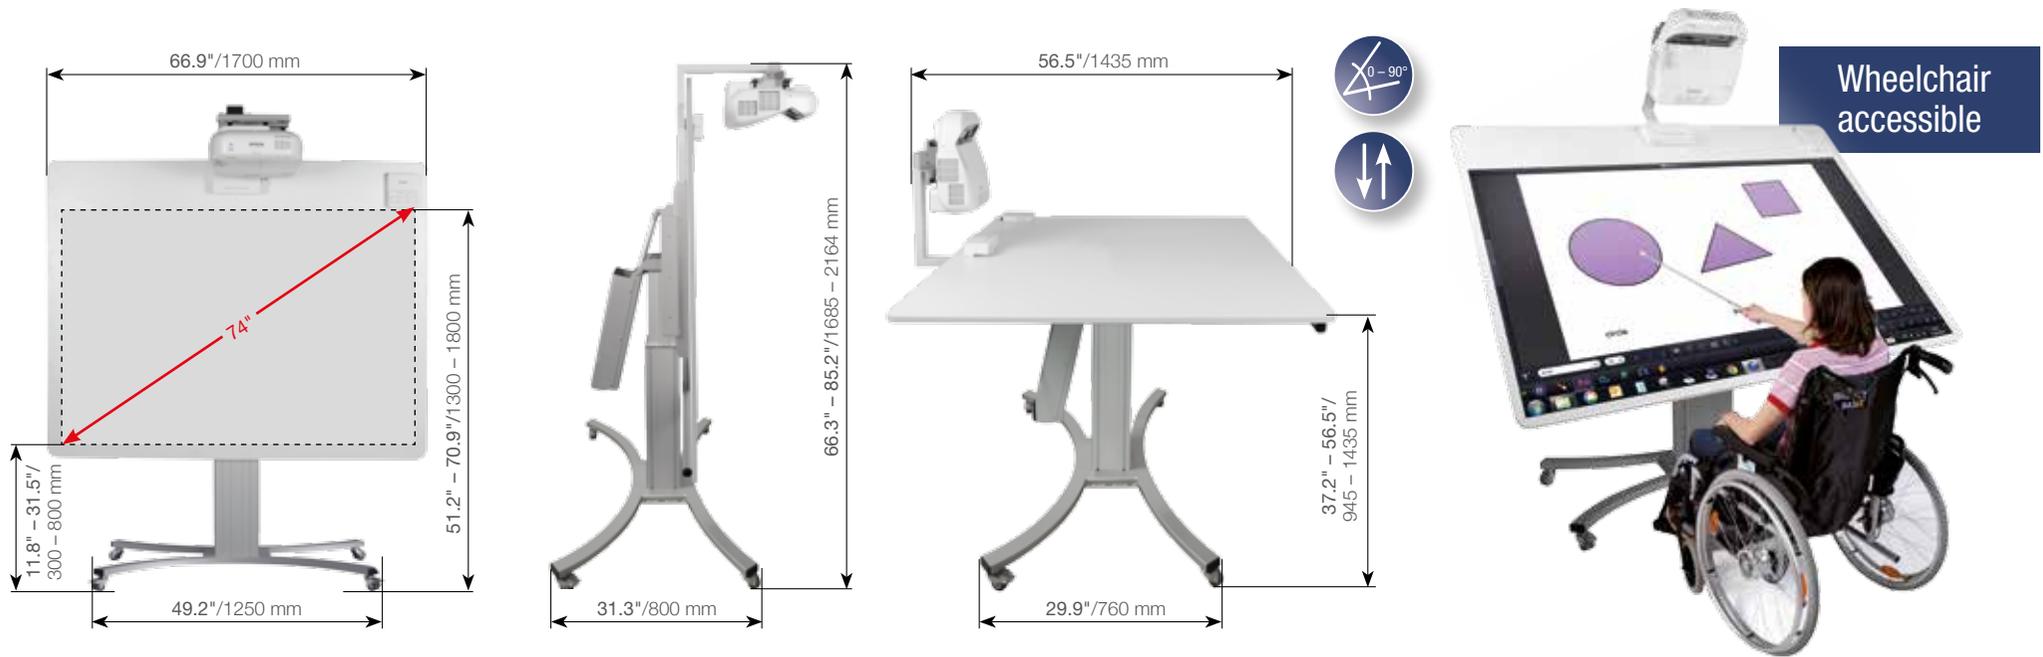

- Sturdy mobile base with heavy-duty 3" casters. Two are lockdown for stationary position.
- 50" x 67" working surface featuring 74" diagonal dry erase surface
- UL approved motorized system providing 20" of height adjustment and 0 – 90° tilt
- Projector arm with integrated cable management
- Mounting plate for Brightlink Pro
- Base and frame finished in silver gloss powder coating, center column anodized aluminum.
- 2 years limited warranty
