

AXIS TM3101 Pendant Wall Mount

Clean, simple design for mini fixed domes

AXIS TM3101 Pendant Wall Mount allows a clean, pendant-style mounting of Axis mini fixed dome cameras. The concealed mounting makes it blend in with the wall. It's compatible with a wide range of Axis products. The compartment allows for secure storage of connectivity devices, and even a microphone. This compact mount is helpful to position the camera exactly where you need it, such as for installations above shop fronts with Axis retail analytics, such as people counting and face recognition.

- > **Contemporary design, becomes one with the wall**
- > **Concealed cabling and mounting screws**
- > **Compartment for microphone and connectivity devices**
- > **Mount on walls, counter tops, and ceilings**
