MATERIALS & FINISHES

Aluminum

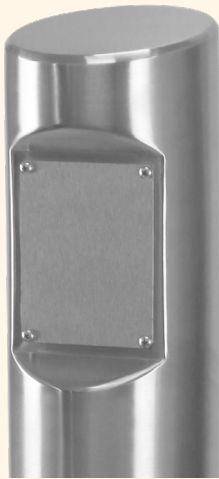

Carbon Steel w/ Powdercoat

Stainless Steel

Most of our products can be made using carbon steel, stainless steel, or aluminum. Steel and stainless steel are the preferred materials to manufacture pedestals. Aluminum has a longer lead time to purchase materials and is considerably harder to weld and finish.

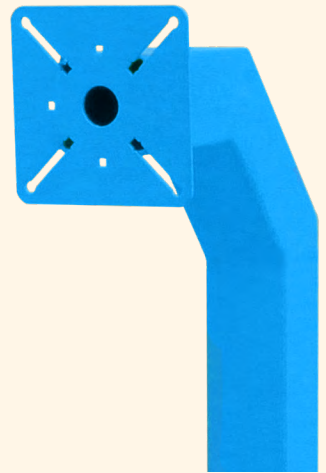

#4 Brushed Stainless

Nickel

Oil-Rubbed Bronze

Custom "RAL" Blue

Metal Finishes

Stainless Steel

-  #4 Brushed, #304 Stainless*
-  #4 Brushed, #316 Marine-Grade Stainless**

Standard Colors

-  Black Wrinkle
-  White*
-  Safety Yellow*

Readily Available Metallic Colors

-  Bright Argent Metallic*
-  Oil-Rubbed Bronze*
-  Anodized Aluminum*
-  Nickel*

Custom "RAL" Colors Available**

*short lead times and additional costs apply

** additional costs and lead times apply

Become a Pedestal PRO

You've worked hard to get where you are and you don't want a pedestal project to slow you down. Major manufacturers can't provide the custom mounts you need, and you don't have the time to design them yourself. Pedestal PRO provides you the pricing, variety, and expertise you need to quote your customers fast and install your pedestal solutions with greater ease. When someone else's lack of planning becomes your challenge, turn to no one else but Pedestal PRO. Together, we'll solve the problem and make a lasting impression on your customer!

"Pedestal PRO did an excellent job quickly deciphering my needs and turning them into stanchions that worked perfectly for my customer. I will never question where to find a pedestal again!"
