

Ring Floodlight Cam Wired Pro

Advanced Features, Next Level Performance

Ring Floodlight Cam Wired Pro is Ring's most advanced outdoor camera yet, with new features such as 3D Motion Detection, Bird's Eye View, an improved 110db siren and Audio+, with an array microphone for enhanced audio and echo cancellation. With 3D Motion Detection, a radar sensor determines when an object crosses your preferred distance threshold so you can pinpoint where and when a motion event begins. And powered by 3D Motion Detection, Bird's Eye View provides an aerial map view of the motion events in front of the floodlight camera and clearly shows the path visitors take when visiting the property.

Ring Floodlight Cam Wired Pro Features include:

3D Motion Detection

Bird's Eye View

110db Siren

2000 Lumens

1080p HDR Video

Color Night Vision

Audio+ for Enhanced Audio

Dual-Band Wifi

Hardwired

Privacy Zones
