2.   Installation

2.1   Bullet Camera Installation

**Ceiling Mounting**

Expansion Bolt
Mounting Screws

Insert three expansion bolts in place into the ceiling and fix the equipment with three mounting screws.
Completion of Installation
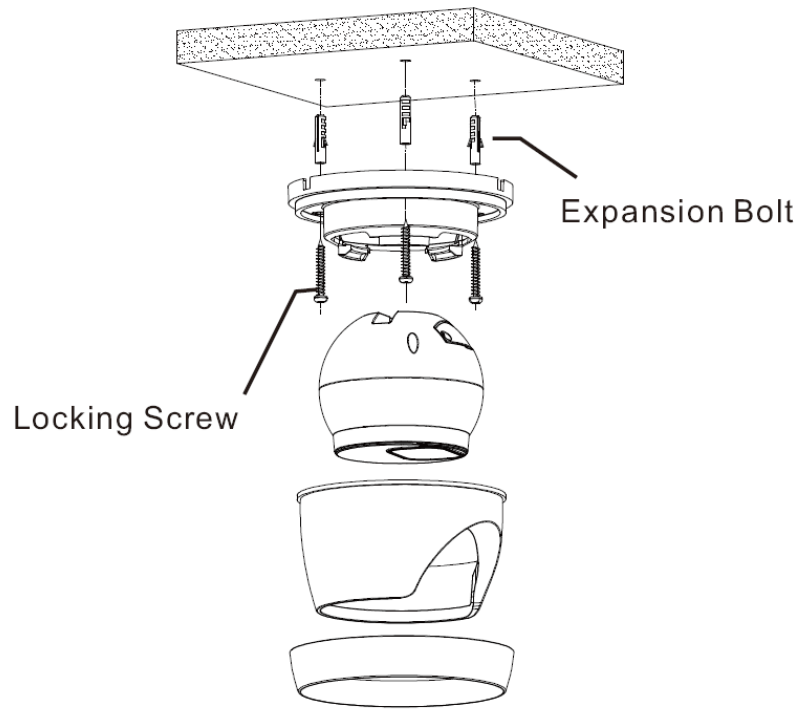

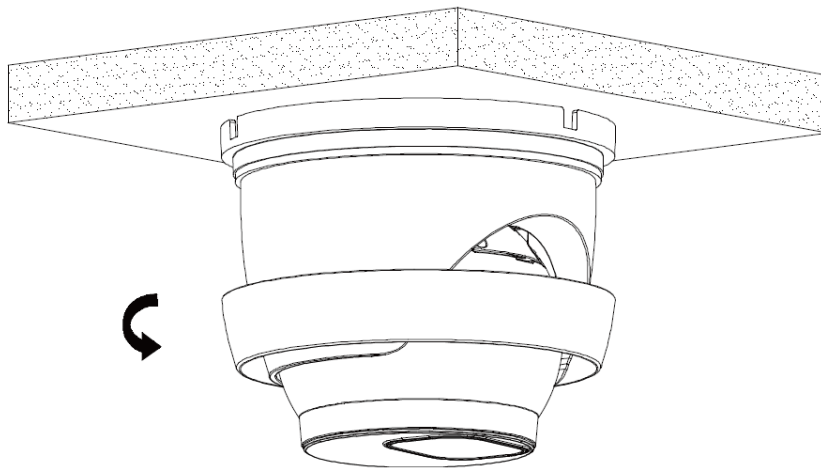

2.2 Dome Camera Installation

Ceiling Mounting

Setup of Sticker

Paste the sticker in place at the proper position as selected.

Collar

Remove the collar off the camera by rotating it down.

Expansion Bolt
Locking Screw

Fix the pedestal by drilling locking holes around the sticker and inserting three expansion bolts into the holes and fastening it with three locking screws.

Mount the collar back by rotating it up.
**Adjust it to an appropriate angle.**

Complete of Installation

2.3 Vandal Proof Dome Camera Installation

Ceiling Mounting

Position Sticker

**Apply the position sticker to the desired camera mounting position.**

Cover Component

Remove the cover component by loosening the three locking screws with the included hex wrench.

Expansion Bolt

Mounting Screw

Use the position indicated on the position sticker to drill the holes needed to mount the camera base. Insert the expansion bolt into the holes. Match the base's mount openings to the expansion bolts position, and then place the mounting screws through the base's mount opening into the expansion bolt. Tighten the mounting screws to ensure the camera base mounted securely.

Locking Screws   Completion of Installation
- **Place the cover component back onto the base.**
- **Please make sure the locking screw position on the cover component matches the locking post on the base.**
- **Tighten the locking screws after the cover component is in the correct position.**
