

1838 MULTI-DOOR ACCESS CONTROLLER

A simple little box delivers so much

- Program from the DKS Cloud (requires DKS connection service subscription) with your laptop or tablet or from your dedicated PC using the Remote Account Manager software (free download at doorking.com/software).
- Voice and Data (programming) Connection over either Cellular, Internet, or copper POTS lines
- Transaction Buffer stores the last 8000 events. Know the "Three W's" of Access Control: who, where, when
- Control access by means of Cards, Digital PIN Codes or Wireless Transmitters
- Call Stations provide communication via telephone network from an entry point to a designated office

Voice and Remote Programming
use DKS service options for connection and programming

Cellular Connection

A wireless solution for connecting managers and users to access control systems. Voice and data via the AT&T 4G LTE network.

Internet Connection

A Plug and Play solution that provides both voice and data via your existing internet connection. *DKS subscription service required

Expandable

Up to 48 access points with wired tracker boards, or 24 with wireless tracker boards.

DKS Cloud Programming

available with DKS Cellular, VoIP Internet or IM Server subscriptions.
