

It's unfortunate but true - a lesson might be lost on students if they have trouble hearing the instructor. With an Audio Amplifier for classrooms students will remain attentive and better informed during class - no more disengaged learners.

With maximum sound amplification, this cutting-edge system ensures consistent levels of audio through the classroom whether from the instructor, video or other multimedia source. Connects easily to classroom A/V equipment such as projectors, microphones, laptops or DVD players and ensures that each student has a quality learning experience. The Audio Amplifier is powerful enough to overcome background noise, poor room acoustics and even mild hearing loss in students.

Features & Benefits

40 Watts of power

Automatic shutdown when not in use with instant wake

TUV Listed to UL 60065, Meets all FCC and Plenum requirements

Two audio inputs with separate volume controls

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120401001	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Amplifier

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
