

C2G DisplayPort to DVI-D Active Adapter Converter - Black

Part No. CG-54317

This adapter allows the DisplayPort™ video output of a laptop to connect to the DVI-D® input of a display and is perfect for applications including displaying video on an HDTV, projector, or monitor in a classroom, on a desktop, or in a meeting room. This active DisplayPort to DVI-D active adapter can be used in either DisplayPort single-mode or dual-mode outputs, providing the conversion for a DisplayPort source even when that source does not support DP++. Active DisplayPort conversion is excellent for applications where multiple DisplayPort adapters are required to connect to a single graphics card. This allows every active adapter to interface with a corresponding display.

On The Go Enhanced

Be prepared for any meeting, presentation, or event with the full confidence that you have the right connection in an ultra-compact design. The DisplayPort to DVI-D adapter can connect a DisplayPort equipped laptop or tablet to a projector, monitor, or HDTV with a DVI-D input port. The compact design of this adapter converter makes it a perfect fit for BYOD (Bring Your Own Device) applications in education or corporate environments.

Straightforward Install

This simple plug and play adapter converter does not require drivers for install and the device is powered through DisplayPort bus power, so no additional power adapters are needed.

Port Protection

The dongle-style adapter converter reduces strain on the video port. The cable between the DisplayPort connection and the adapter converter provides strain relief that protects the port from strain damage as cords are moved.

Note: When this device is connected to a DisplayPort source device that supports audio and an DVI-D to HDMI Cable with the HDMI connector plugged into a HDMI display device that supports audio both audio and video signal will be transmitted from the source device to the display device. However connecting to a DVI-D display will not allow audio to pass to the display.

Features & Benefits

Active Conversion of DisplayPort to DVI-D

Supports up to a 1920x1200 resolution

Dongle style adapter reduces strain on ports

Supports 3D Video

Specifications

General Info

Product Line C2G Color Black

UPC Number	757120543176	Country Of Origin	China
Application Sector	Residential, Commercial	Туре	Adapter, Converter, Active Device
Dimensions			
Cable Length	0.67 ft		
Additional Information			
Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
Technical Information			
Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	32 AWG
Video Resolution	WUXGA (1920x1200), 1080p	Bend Radius	51 mm
Jacket Rating	Standard Non-Rated	Data Transfer Rate	18 Gbps
Adapter Rear	DVI-D Dual Link Female	Adapter Front	DisplayPort Male
Voltage	30 V
