

APC C Type Power Filters

The APC C Type Power Filters provides surge protection and noise filtering for high-performance AV systems. Isolated power filter banks eliminate electromagnetic and radio frequency interference (EMI/RFI) as a source of AV signal degradation. Some C Type models also provide dataline surge protection and power conditioning which prevent power surges and spikes from damaging your electronic equipment.

The C Type models are energy efficient and safety agency approved. Some models include LED status indicators displaying power status at a glance, a resettable circuit breaker, and rotating outlets which provide unrivaled mounting flexibility.

Guaranteed Surge Protected Outlets

Ensure connected devices like a TV, receiver, DVR, and sound system are safe and protected from surges, spikes, and lightning strikes.

Visual LED Indicators*

LED status indicators provide visual unit and power status updates.

Data Line Surge Protection*

Surge-protected COAX connectors ensure surges traveling over cable TV, satellite, or RF antenna lines do not reach connected equipment. The telephone line is also protected with a pair of RJ11 jacks.

Isolated Power Filter Banks

Eliminate electromagnetic and radio frequency interference (EMI/RFI) as a source of AV signal degradation.

Rotating Outlets*

Rotating outlets allow unit orientation to match your specific AV setup.

Lifetime Warranty and Equipment Protection Policy

Lifetime warranty and \$350,000 Equipment Protection Policy.

*C20B and C25B Only

Product Details	C2	C20B	C25B
Input Voltage	120 V	120 V	120 V
Input Connection, Cord Length	NEMA 5-15P	NEMA 5-15P	NEMA 5-15P
Cord Length	2ft	6ft	8ft
Output Connections	(2) NEMA 5-15R	(8) NEMA 5-15R	(10) NEMA 5-15R
Coax Protection	N/A	1 Pair	1 Pair
Telephone/DSL	N/A	1 In, 1 Out	1 In, 1 Out
Product Warranty	Lifetime		
Lifetime Equipment Protection Policy	\$350,000
