

Wireless Touch Screen Keypad

SKU	UPC
2GIG-TS1-E (EN)	0-93863-12038-1
2GIG-TS1-C (FR-CA)	8-17082-01015-1
2GIG-TS1-S (ES)	8-17082-01014-4

We are pleased to announce the availability of the improved Wireless Touch Screen Keypad (2GIG-TS1).

A full-color, touch screen interface provides the same, easy-to-use keypad functions as the Go!Control® Panel. With the TS1 Keypad, users can control and access security and automation devices from any room in the home. The new barrel connector option makes it easier to connect power to the TS1 Keypad. Its also simpler to connect the Firmware Update Cable (2GIG-UPCBL2) to the touchscreen using the new, built-in 90-degree, 4-pin header which no longer requires users to attach the separate 4-pin extender.

FEATURES

- **New** barrel connector power option in place of battery compartment
- **New** built-in ,90 degree, (4)-pin header replaces the need to attach the separate 4-pin extender to the Firmware Update Cable (2GIG-UPCBL2).
- Same easy-to-use interface as the Go!Control Panel
- Full-color touch screen interface
- One-touch Home and Emergency navigation
- Quick and responsive bi-directional communication with the Go!Control Panel
- Easy access to Z-Wave functionality
- See and hear system status, chimes, and alerts
- Configure screen and buttons to darken completely and light up with one touch
- Add up to four (4) TS1 Wireless Touch Screen Keypads to a Go!Control Panel (the panel requires a 2GIG-XCVR2-345).

PRICING

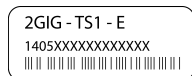

Contact your 2GIG Distributor or Sales Representative for pricing details.
