

# 30-Watt Horn

Valcom's 30-Watt horn is a high efficiency horn equipped with a volume control and is ideal for high noise environments such as industrial, manufacturing and warehouses. A key benefit to the 30-watt horn is its ability to disperse sound with lower energy consumption. Constructed with stainless steel hardware and LEXAN ultra-high impact material, the 30-watt horn can also expand your telephone system.

## Features & Advantages
