FIBER TOOL **KIT**

The Tempo Communications FTK-ADI kit provides the fiber optic technician all the tools that they require to prepare the field fiber for termination to mechanical and fuse on connectors.

Fiber preparation is accomplished with the Kevlar cutters and side cutters. The 3 in 1 fiber optic stripper provides precision stripping capability of all common fiber sizes. The 915CL fiber optic cleaver provides a precision cleave for low loss connections. The 180XL visual fault locator provides fast visual verification of the mechanical connector termination. The 1.25mm adapter connects to the VFL port to provide interface to LC and MU connectors.

All tools are housed in the ruggedized carry case which has ample space for additional tools and supplies.

FIBER OPTIC TERMINATION TOOL KIT - ADI

INCLUDES:

- Kevlar Cutter
- 3-in-1 Fiber Optic Stripper
- 915CL Cleaver
- 1.25mm Adapter for VFL
- Fiber Optic Tool Case
- Visual Fault Locator
- Side Cutter

CAT. NO.	DESCRIPTION
PA1511	Kevlar Cutter
PA1177	3-in-1 Fiber Optic Stripper
FIBKIT CASE	Fiber Optic Tool Case
PA1175	Side Cutters
180XL	Visual Fault Locator
915CL	Fiber Optic Cleaver
1.25 MM ADAPTER	1.25mm Adapter for LC and MU connectors
