Sonos® Arc Mount

Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

The Sonos Arc Mount securely affixes your Arc soundbar to a wall.

Seamless Design

This nearly invisible mount keeps your soundbar as close to the wall as possible so your style and entertainment can take center stage.

Optimal Listening

Arc smartly detects when it is attached to the mount and automatically adjusts the EQ to temper bass resonance from the wall.

NOTE: For the best sound, mount Arc four inches from the bottom of your TV.

For complete details on Arc Mount and other Sonos products, please visit sonos.com.

For additional information about Sonos and Crestron system integration, please visit partners.crestron.com/sonos.
