Description:

The VEADP4 analog phone delivers the latest advanced productivity-enhancing features, in addition to all the traditional analog phone features. The VEADP4 is designed to seamlessly connect to extensions of your business communication system, the PSTN, or your Valcom Intercom/Public Address System. The VEADP4 analog phone is the ideal fit for any facility and is built to last with a professional User Interface and feature set. Program up to 20 speed dials, each with an on-screen customizable label, with frequently called numbers or feature codes. Other features include caller ID, 99 caller ID memory, and call conferencing. The VEADP4 is hearing aid compatible and wall mountable.

ARCHITECTS AND ENGINEERS

The VEADP4 Administrative Telephone, shall consist of a loudspeaker, a handset and a cradle attachment and may be wall or desk mountable. The VEADP4 device shall provide initiation or reception of live voice calls to Valcom IP audio gateways, and Valcom Intercom / Public Address System. The integrated handset assures privacy for two-way conversations. The integrated optional speaker allows for handsfree communication. THE VEADP4 shall be powered via an included Power Adapter and 3 x AA batteries. Programming will be done directly in the VEADP4 through the

Phone menu. The VADP4 shall be constructed with a pre-installed handset. The VEADP4 shall be table mountable with 4 non-skid pads to protect the table surface and to provide slip resistance. The VEADP4 is suitable for indoor use.

Maximum dimensions shall be: 10.30in H x 3.50in W x 11.50in D (26.16cm x 8.89cm x 23.88cm). Weight shall be approximately: 2.70lbs (1.22kg). Warranty information may be found on our website at www.valcom.com/warranty.
